Department of Commerce Economic Development Administration

Department of Commerce Economic Development Administration Budget Estimates, Fiscal Year 2021 Executive Summary

The Administration's 2021 Budget builds on the President's commitment to advance the vision of a Federal Government that spends taxpayer dollars more efficiently and effectively and to provide necessary services in support of key National priorities while reducing deficits. It also identifies the savings and efficiencies needed to keep the Nation on a responsible fiscal path. The Administration has made the necessary tradeoffs and choices inherent in pursuing these goals. This means changing the role and size of the Federal Government and prioritizing the programs that provide a good return for the taxpayer, as well as those that serve the most critical functions, while consolidating or eliminating duplicative, ineffective or less critical programs. Many difficult decisions were necessary to reach the funding level provided in this budget, and the elimination of the Economic Development Administration (EDA) is one of them.

In support of these goals, the EDA 2021 budget requests program decreases to provide offsets to rebuild the military and make critical investments in the Nation's security. This budget requests \$31.6 million to cover the costs associated with the first year of closing down the agency.

In light of this proposal to continue closing down EDA, the Administration is also including in the general provisions for the Department of Commerce specific language to allow for the defederalization of its Revolving Loan Fund grants. This language is necessary for the orderly close down of EDA's operations. Without the authority, EDA or any successor operating unit within the Department, would have to administer and monitor these grants in perpetuity because the federal interest in this type of grant does not end. This is a change to EDA's authorizing statute that the Department would pursue even if EDA were not eliminated in order to reduce costly grantee reporting requirements and burdensome agency oversight on successful Revolving Loan Funds that have demonstrated a strong track record of compliance and effectiveness.

Performance:

The effectiveness of EDA investments is assessed using numerous internal and external performance measures including the Government Performance and Results Act (GPRA) goals. These efforts have been institutionalized in EDA operations to maintain quality control and use objective methods to assess EDA performance. For current GPRA targets please see the 2021/2019 Annual Performance Plan and Report.

Adjustments:

Inflationary Adjustments

EDA's 2021 Base includes a total of \$2,801,385 and 0 FTE/ 0 positions to fully fund required inflationary adjustments to current EDA activities. This adjustment includes the actual cost increases incurred in FY 2019 and inflationary increases to the FY 2020 budget request for labor and non-labor activities, including benefits, service contracts, utilities, field office lease payments, and rent charges from the General Services Administration (GSA). In FY 2019, EDA's rent increased by \$213,000 and there was an additional \$1,050,000 in contractual costs and charges under inter-agency agreements for shared services. These changes and the inflationary increases from FY 2020 to FY 2021 of \$1,538,385 are reflected in Exhibit 9 of this document.

Technical Transfer

The Department of Commerce (DOC) is proposing to transfer nine projects and funding out of the Working Capital Fund and the Advances and Reimbursable account to the Departmental Management Salaries and Expense account as part of its annual review to properly align and account programs and costs. This transfer executes the EDA's portion of the DOC transfer. For more information regarding the specific projects and funding transfers for the Department of Commerce please refer to Exhibit 3 of the Departmental Management FY 2021 Congressional Justification Budget.

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Public Works

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Public Works Program.

Base Program

Through the Public Works Program, EDA made strategic co-investments to help communities build or expand access to the infrastructure assets that are the building blocks of an economy. These assets supported the growth and economic development of distressed regions. EDA's Public Works Program invested in traditional infrastructure through this program including water and sewer system improvements, industrial parks, business incubator facilities, expansion of port and harbor facilities, skill-training facilities, and the redevelopment of brownfields. In addition, EDA provided investments to help facilitate the transition of distressed communities to become competitive in the worldwide economy. This was accomplished through the development of key public infrastructure such as technology-based facilities; broadband infrastructure; research and development commercialization centers; facilities for workforce development; wet labs; multi-tenant manufacturing facilities; research, business and science parks; and telecommunications infrastructure and development facilities.

The program's authorizing statute is the Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 et seq.).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Partnership Planning

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Partnership Planning Program.

Base Program

The Partnership Planning Program supported planning projects that helped a community identify regional assets, maximize economic opportunities, and establish strategies for promoting the competitiveness of an entire region. EDA's Partnership Planning Program provided the resources to help communities develop the bottom-up strategies that guide the identification and prioritization of future development decisions. EDA's Partnership Planning Program helped support local organizations (Economic Development Districts (EDD), Indian Tribes, and other eligible entities) with their long-term planning efforts, outreach to communities, and development of Comprehensive Economic Development Strategies (CEDS).

The CEDS, which may continue to be utilized by communities after the closure of EDA, is designed to bring together public and private sector stakeholders in the creation of a regional economic roadmap to diversify and strengthen regional economies. The CEDS analyzes the regional economy and serves as a guide for establishing regional goals and objectives, developing and implementing a regional plan of action, identifying investment priorities and funding sources, and assigning responsibilities for execution of the strategy. Public and private sector partnerships are critical to the implementation of the integrated elements of a CEDS. As a performance-based plan, the CEDS serves a critical role in a region's efforts to defend against economic dislocations due to trade impacts, competition and other events that would result in the loss of jobs and private investment. The CEDS can be used as a valuable tool for other federal programs because it outlines a community's regional strengths, weaknesses and plan for growth.

The program's authorizing statute is the Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 et seq.).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Technical Assistance

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Technical Assistance Program.

Base Program

EDA oversaw three technical assistance sub-programs (University Center, Local, and National) that promoted economic development and alleviated unemployment, underemployment and out-migration in distressed regions.

The University Center (UC) sub-program was specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. University Centers were required to devote the majority of their funding to respond to technical assistance requests originating from communities and organizations located in the economically distressed areas of their service regions.

The Local Technical Assistance (TA) sub-program was commonly used to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator. Economically distressed communities often have a pre-disposition towards the same type of industry that have historically been employers in the area, while market forces may be moving in another direction. Feasibility studies helped determine whether the market would support a particular activity or site.

The National Technical Assistance (TA) sub-program assisted economic development organizations to create new economic development tools that support efforts to attract private investment to regions and local communities. It sought to provide timely information on best practices in economic development critical to practitioners' efforts to alleviate economic distress and promote economic development. EDA also conducted demonstrations of promising economic development tools and techniques and disseminated the results to state and local organizations as well as urban, rural, and Native American communities. This program identified and funded the collection and dissemination of new knowledge, analysis, and technical information to help communities assess their economic development opportunities.

The National TA sub-program also supported the dissemination and implementation of research and information to economic development policymakers and practitioners.

The program's authorizing statute is the Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 et seq.).

Activity: Research and Evaluation

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Research and Evaluation Program.

Base Program

EDA's Research and Evaluation funds supported the development of tools, recommendations, and resources to shape investment decisions and inform policymakers as well as regional planning decision-making at the local level. Research and Evaluation Program investments provided cutting-edge research and evaluation of EDA's programs, including the identification of best practices, which were disseminated to regional, state, and local practitioners.

EDA's Research and Evaluation investments were designed to identify and disseminate the best thinking and best practices of economic development in the 21st century. Methodologically sound program evaluations helped to identify the most effective ways to increase the return on taxpayer investment, increase private capital investment, and create higher-skill, higher-wage jobs. The Research and Evaluation Program was carried out through grants and cooperative agreements, as well as through studies conducted in-house by EDA research staff.

The program's authorizing statute is the Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 et seq.).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Trade Adjustment Assistance

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Trade Adjustment Assistance for Firms Program.

Base Program

The mission of the Trade Adjustment Assistance for Firms (TAAF) Program was to help import-impacted U.S. firms regain competitiveness in the global marketplace, thereby helping to retain and create U.S. jobs. The program provided cost-shared direct technical assistance in the development of business recovery plans, which are known as Adjustment Proposals (APs) under Section 252 of the Trade Act, as well as federal matching funds to implement projects outlined in the proposals to expand markets, strengthen operations and increase competitiveness. Firms contributed a matching share to create and implement their recovery plans.

The TAAF Program provided technical assistance to help U.S. firms experiencing a decline in sales and employment, resulting in part from the increase in imports of similar or directly competitive articles, to become more competitive in the global marketplace. The TAAF Program was a trade remedy mechanism which, rather than relying on tariffs, quotas or duties, supported free trade by helping trade import-impacted firms and industries regain their economic competitiveness. EDA funded and worked in partnership with a national network of 11 Trade Adjustment Assistance Centers (TAACs).

EDA's TAAF Program is authorized under chapters 3 and 5 of title II of the Trade Act of 1974, as amended (19 U.S.C. § 2341 et seq.).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Economic Adjustment Assistance

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Economic Adjustment Assistance (EAA) Program.

Base Program

Part of EDA's mission was to help distressed communities address problems associated with long-term economic distress, as well as sudden and severe economic dislocations including recovering from the economic impacts of natural disasters, the closure of coal and nuclear power plants, changing trade patterns, and the depletion of natural resources.

Through the EAA Program, EDA helped local communities design and implement strategies to address evolving economic conditions that were causing or threatened to cause serious structural damage to the underlying economic base or were undermining locally-developed development goals. The EAA Program provided the Agency a robust array of resources that could be brought to bear to support construction, technical assistance, and financing projects that helped distressed communities become more competitive and more prosperous. Specifically, the EAA program provided resources to address the needs of communities impacted by globalization, especially communities that needed to develop and implement collaborative regional innovation strategies to transform and diversify their economies and position them competitively.

A particular focus of EDA's EAA funding was to assist communities facing the closure of nuclear or coal power plants or lacking broadband infrastructure. EAA funds could be used to provide support such as designing a transition strategy, constructing or upgrading public infrastructure, conducting feasibility or environmental studies, supporting construction and operations of incubators and business accelerators, and capitalizing locally or regionally administered Revolving Loan Funds (RLFs).

The program's authorizing statute is the EDA's Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 *et seq.*).

Activity: Assistance to Coal Communities

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Assistance to Coal Communities Program.

Base Program

This program competitively awarded grants to coalitions of regionally-driven economic development and workforce development organizations anchored in impacted coal communities. These grants enabled grantees to take deliberate and measured steps to build economic resilience and industry diversification and promote new job creation opportunities. Eligible activities included helping communities: organize themselves to respond on behalf of affected workers and businesses; strengthen or develop targeted industry clusters; prepare and train the existing workforce for new jobs; and help and execute coordinated economic and workforce development activities based on communities' strategic plans. These activities led to more competitive and resilient "pipelines" of skilled workers moving into new job opportunities.

This program line was created by the Consolidated and Further Continuing Appropriation Act, 2015 (PL 113-235) and is executed using EDA's current program authorities pursuant to EDA's authorizing statute, the Public Works and Economic Development Act (PWEDA) of 1965, as amended (42 U.S.C. § 3121 *et seq.*).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Regional Innovation

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the Regional Innovation Program (RIP).

Base Program

The RIP was a distinct program in EDA's portfolio that awarded funds to a broad range of communities and entities to develop and strengthen highgrowth, innovation-based regional economies. The program aimed to build local capacity for economic growth through strategic investment opportunities that leverage the innovation capacity found in America's regions by supporting sector- and cluster-based, high-growth entrepreneurship.

The RIP had two components identified through its authorizing legislation: Cluster Grants and the Regional Innovation Research and Information (RIRI) Program. Cluster Grants supported activities relating to the formation and development of regional innovation clusters. The RIRI Program was designed to provided research, technical assistance, performance metrics and data pertaining to regional innovation strategies and clusters. To date, all funding had been allocated to the Cluster Grants.

This program's authorizing statute is Section 27 of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (13 U.S.C. § 3722).

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: STEM Apprenticeship Pilot Program

Goal Statement

The Administration is not requesting funding for EDA's grant programs including the STEM Apprenticeship Pilot Program.

Base Program

Two of EDA's long-standing investment priorities—workforce development and economic resilience—strongly align with the need to increase science, technology, engineering and math (STEM) talent development efforts across the nation, especially as it relates to our growing regional innovation economies which are experiencing an increased demand for workers with STEM skills. Through management of the Regional Innovation Strategies Program, EDA's Office of Innovation and Entrepreneurship has found that as communities increase their entrepreneurship activity, they struggle to find qualified talent to help grow these businesses of the future. This pilot national grant competition aimed at supporting STEM talent development complemented EDA's other programs that increased the programming and capital that are driving regional innovation.

This program's authorizing statute is Section 28 of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (13 U.S.C. § 3723).

Statement of Operating Objectives

Department of Commerce Economic Development Administration Economic Development Assistance Programs JUSTIFICATION OF PROPOSED LANGUAGE CHANGES (Dollar amounts in thousands)

FY 2021

This language is proposed for the orderly closedown of the Economic Development Administration and its grants and loans previously awarded.

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

In addition to amounts made available to the Economic Development Administration under the heading "Salaries and Expenses", unobligated balances previously appropriated under this heading, to remain available until expended, for purposes of the closure of the Economic Development Administration, including but not limited to, ongoing administration, oversight and monitoring of grants and loans previously awarded by the Economic Development Administration or a successor operating unit within the Department of Commerce: provided, that such funds will be available to such successor operating unit in addition to any other amounts that may be appropriated for the necessary expenses of such operating unit from whatever source.

The following language is proposed in the general provisions for the Department of Commerce to cancel amounts from prior appropriations:

SEC. 515. (a)(1) Of the unobligated balances from prior year appropriations available to the Department of Commerce, Economic Development Administration, Economic Development Assistance Programs, \$38,000,000 is cancelled not later than September 30, 2021.

EDA requires special authority to close down its RLFs (i.e., defederalize), which are designed to run in perpetuity. As of December 2018, EDA oversees about 510 RLFs nationwide, with a combined EDA investment of almost \$566 million. EDA's RLF portfolio has a combined capital base of about \$870 million (includes EDA investment plus grantee matching funds plus interest income), of which approximately \$331 million is available for lending.

The following language is proposed in the general provisions for the Department of Commerce to allow for the defederalization of EDA's Revolving Loan Fund grants:

SEC. 543. Section 601(d)(2) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3211), is amended—

(1) by striking "(2) RELEASE.—" and inserting the following:
"(2) RELEASE.—
"(A) IN GENERAL.—"; and

(2) by adding at the end the following:

"(B) REVOLVING LOAN FUND PROGRAM.—

The Secretary may release, subject to terms and conditions the Secretary determines appropriate, the Federal Government's interest in connection with a grant under section 209(d) not less than 7 years after final disbursement of the grant, if—

"(i) the recipient has carried out the terms of the award in a satisfactory manner;

"(ii) any proceeds realized from the release of the Federal Government's interest will be used for one or more activities that continue to carry out the economic development purposes of this Act; and

"(iii) the recipient shall provide adequate assurance to the Secretary that at all times after release of the Federal Government's interest in connection with the grant, the recipient will be responsible for continued compliance with the requirements of section 602 in the same manner it was responsible prior to release of the Federal Government's interest and that the recipient's failure to comply shall result in the Secretary taking appropriate action".

Department of Commerce Economic Development Administration Economic Development Assistance Programs APPROPRIATION LANGUAGE AND CODE CITATION

FY 2021

Economic Development Assistance Programs

1 For necessary expenses of the economic development assistance programs as provided for by law,

42 U.S.C. 3214(c), 3231

42 U.S.C. 3214(c) - Authorizes the transfer of appropriated funds from other Federal agencies, if such funds are used for the purpose for which (and in accordance with the terms under which) the funds are specifically authorized and appropriated.

42 U.S.C. 3231 - Authorizes funds to be appropriated for economic development assistance programs to carry out 42 U.S.C. 3121 *et seq.*, through fiscal year 2008, to remain available until expended.

2 Authorization of appropriations for defense conversion activities,

42 U.S.C. 3232

42 U.S.C. 3232(a) - In addition to amounts made available under section 3231 of this title, there are authorized to be appropriated such sums as are necessary to carry out section 3149(c)(1) of this title, to remain available until expended.

42 U.S.C. 3232(b) - Funds made available under subsection (a) of this section may be used for activities including pilot projects for privatization of, and economic development activities for, closed or realigned military or Department of Energy installations.

3 Authorization of appropriations for disaster economic recovery activities,

42. U.S.C. 3233

42. U.S.C. 3233(a) - In addition to amounts made available under section 3231 of this title, there are authorized to be appropriated such sums as are necessary to carry out section 3149(c)(2) of this title, to remain available until expended.

42. U.S.C. 3233(b) - The Federal share of the cost of activities funded with amounts made available under subsection (a) of this section shall be up to 100 percent.

4 Funding for grants for planning and grants for administrative expenses,

42 U.S.C. 3234

Of the amounts made available under section 3231 of this title for each fiscal year, not less than \$27,000,000 shall be made available for grants provided under section 3143 of this title.

5 Provided, that these funds may be used to monitor projects approved pursuant to title I of the Public Works Employment Act of 1976, as amended,

42 U.S.C. 6710

42 U.S.C. 6710 - Authorized appropriations for the administration of the Local Public Works Capital Development and Investment Act of 1976.

6 Title II of the Trade Act of 1974, as amended, and 19 U.S.C. 2345 – Authorizes appropriations to carry out Trade Adjustment Assistance for Firms (TAAF),

Public Law No: 114-27, Trade Preferences Extension Act of 2015. Title IV of that Act, entitled the "Trade Adjustment Assistance Reauthorization Act of 2015" extends the authorization of appropriations for TAAF through fiscal year 2021.

7 The Community Emergency Drought Relief Act of 1977 (including monitoring and close-out),

42 U.S.C. 5184 note

42 U.S.C. 5184 note - Authorized appropriations to carry out those provisions of the Community Emergency Drought Relief Act of 1977.

- 8 For section 27 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3722).
- 9 For section 28 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3723).

Department of Commerce Economic Development Administration Salaries and Expenses JUSTIFICATION OF PROGRAM AND PERFORMANCE (Dollar amounts in thousands)

Activity: Operations and Administration (1-year)

Goal Statement

For 2021, EDA requests a decrease of about \$11.5 million and 106 positions below the 2020 enacted budget level, for a total of \$31.6 million and 99 positions for the Salaries and Expenses (S&E) account.

Base Program

The S&E appropriation generally supports the orderly closedown of EDA and the on-going administration, monitoring, and close-out of grants and loans previously awarded by EDA. These activities will be carried out through a steadily reducing footprint consisting of headquarters located in Washington, DC, and six Regional Offices located in Atlanta, Austin, Chicago, Denver, Philadelphia, and Seattle.

Executive Direction: The Assistant Secretary directs the Bureau's programs and is responsible for the conduct of all closedown activities at EDA's headquarters and Regional Offices, subject to the policies and directives prescribed by the Secretary of Commerce.

The Deputy Assistant Secretary and Chief Operating Officer assists the Assistant Secretary in all matters affecting EDA and performs the duties of the Assistant Secretary during the latter's absence.

Office of the Chief Counsel: The Office of the Chief Counsel (OCC) prepares and reviews legal documents to ensure that the orderly closedown of EDA and on-going administration of previous grants and loans are consist with applicable legal requirements imposed on EDA programs by statute, regulation, Executive Order, OMB circular, or controlling policy document. The Chief Counsel directs and supervises the activities of the OCC, including those of EDA's six Regional Counsels in the field. OCC provides a full range of legal services incident to federal assistance law, such as reviewing the acceptability of title to property, sufficiency of diverse property-related agreements, and post-approval matters, such as resolving complex property issues relating to the use and disposition of project assets.

Office of Finance and Management Services: The Chief Financial Officer/Chief Administration Officer (CFO/CAO) is the senior official for financial and administrative management within EDA. As such, the CFO/CAO is responsible for managing EDA's budget execution, managing financial and accounting activities, directs EDA's efforts related to preparation of financial statements and the annual financial audit, and coordinating and evaluating internal management control systems. The CFO/CAO is also responsible for providing administrative support and information technology services for EDA headquarters and oversight of these services at the Regional Offices, for those services not already provided at the Departmental level. These service areas include acquisition management, human capital management, facilities, real and personal property, records management, and other support activities.

The Administration Division provides a full range of non-financial administrative services, unless otherwise provided at the Department level, for EDA headquarters and oversight of these services at the Regional Offices. The Division provides records and property management, human capital management, procurement management, security oversight, loan management, audit oversight and resolution management, continuity of operations planning, information technology, and other support activities.

The Budget and Finance Division, in concert with bureau and Departmental officials, develops, prepares, and executes the annual EDA budget. The Division is responsible for the fiscal aspects of EDA programs, including programs entrusted to other Federal agencies, by monitoring fiscal controls for program and administrative expenses including accounting and financial statement preparation, allotment of funds, operating budgets, staffing limitations, and analysis of reports and resource proposals, consistent with the requirements of the Anti-Deficiency Act.

Office of External Affairs and Communications: The Director of External Affairs and Communications coordinates EDA's public affairs, legislative affairs and executive secretariat activities, and acts as point of contact for members of Congress, Congressional staff, other Federal agencies, state and local governments, the media, and the general public. The Office provides appropriate and comprehensive bureau information necessary to respond to Secretarial, Congressional, intergovernmental, other Federal bureau, and public requests related to the closedown of EDA, and prepares and processes-controlled correspondence relating to grants and other bureau business.

The Public Affairs and Communications Division staff interacts with the public on behalf of EDA, and is responsible for the form, appearance, and content of all materials and information provided to EDA stakeholders, partners, customers, and the general public. The Division also directs EDA's internal communications.

The Legislative and Intergovernmental Affairs Division coordinates all activities relating to EDA relations and interactions with members of Congress, Congressional staff, other federal agencies, state and local elected officials, and other governmental and non-governmental organizations through all manner of written and verbal communication.

Office of Regional Affairs: The Deputy Assistant Secretary for Regional Affairs oversees program operations in the six Regional Offices, the Performance, Research and National Technical Assistance Division, Trade Adjustment Assistance for Firms Division, Economic Development Integration and Disaster Recovery Division, and the Office of Innovation and Entrepreneurship. As part of this responsibility, the Deputy Assistant Secretary for Regional Affairs ensures a bureau-wide focus on closing down EDA effectively; and the development and implementation of adequate internal controls to ensure EDA exercises adequate fiduciary oversight of its programs as it closes down. The Office of Regional Affairs develops and maintains program guidance, policies, directives, and operating procedures to ensure efficient administration of EDA's financial assistance programs as the bureau closes down.

The Performance, Research and National Technical Assistance Division measures EDA program performance with an eye to improving internal controls and promoting best practices that will result in efficient closedown of EDA. The Performance, Research and National Technical Assistance staff is also responsible for oversight, monitoring and close out of research and national technical assistance grants as the bureau closes down. They will also handle all close-out performance reporting to the Office of Management and Budget, the Department, Congress and other stakeholders.

EDA's Economic Development Integration and Disaster Recovery Division collaborates with federal peers to effectively coordinate disaster recovery operations under the Economic Recovery Support Function and to identify opportunities to facilitate the coordinated and effective investment of multiple federal economic development resources in support of high-impact projects and activities by implementing policies and methods that:

- Increase Access: Ensuring that local and regional applicants can easily identify and apply for the federal economic development resources that can best support their local priorities and objectives.
- Enhance Collaboration: Facilitating coordination among multiple partners and stakeholders (federal and non-federal, public and private) to promote multiple, strategic investments in support of local priorities that can contribute to sustainable economic growth, especially for distressed communities.
- Reduce Administrative Burdens: Working with federal interagency partners on guidance tools to help applicants navigate, and possibly consolidate different administrative requirements that are triggered by each individual award of federal assistance (e.g., strategic planning, reporting).

In addition to three EDI staff at EDA Headquarters, Regional Integrators² work in each of (Atlanta, GA, Austin, TX, Chicago, IL, Denver, CO, Philadelphia, PA, and Seattle, WA) to further enhance EDA's capacity to support local and regional economic development projects

The Trade Adjustment Assistance for Firms Division is responsible for oversight, monitoring and close out of grants to Trade Adjustment Assistance Centers (TAACs) across the nation which provide technical assistance to manufacturing firms to help them increase their global competitiveness.

The Office of Innovation and Entrepreneurship (OIE) will monitor and service previously funded EDA grants that focused on promoting and supporting high-growth entrepreneurship and accelerating commercialization of federally funded research. OIE will ensure that these grants are closed out in a timely manner consistent with EDA's overall shutdown plan.

The six Regional Offices include the six Regional Directors and their supporting operational, technical, and administrative personnel. Regional Directors are responsible for the closedown of EDA's programs within specific geographic regions, the management of regional resources, and the monitoring and servicing of previously funded projects. The Regional Offices are staffed with Regional Counsels who provide the legal reviews required to administer and closedown EDA investments. The Regional staffs monitor and service approved projects at the local level.

Statement of Operating Objectives

Support the orderly closedown of EDA and the on-going administration, monitoring, and close-out of grants and loans previously awarded by EDA.

Explanation and Justification

The EDA worked directly with local economic development officials to support their bottom-up, regionally-owned economic development initiatives. Linking EDA's investments to a community's strategic economic development plan enables the federal government to better leverage public and private sector investments to achieve economic development goals. Economic development is about creating the conditions for sustained economic growth and improved quality of life and prosperity for our citizens by expanding the capacity of individuals, firms, and communities to maximize the use of their talents and skills to support innovation, lower transaction costs, and responsibly produce and trade valuable goods and services.

² <u>https://www.eda.gov/edi/contact/</u>

The way in which EDA had such a dramatic impact all across the country is through its Comprehensive Economic Development Strategy planning requirements. Economic development planning through the Comprehensive Economic Development Strategies (CEDS) is not only a cornerstone of EDA's programs, but successfully serves as a means to engage the community and region in building the regional capacity to ultimately create an environment for regional economic prosperity. EDA's successful model of economic development included the following key elements: focusing on regional economic ecosystems and bottom-up strategies; and leveraging regional assets to the fullest extent - businesses, existing and emerging industry clusters, supply chains, technology, infrastructure, institutions of higher learning, and human talent.

EDA's programs were designed to provide a full range of tools and resources that can help communities build the capacity to capitalize on their full economic potential—whether by addressing an immediate critical infrastructure need, assisting with the development of a regional strategic plan, or helping a community connect to the worldwide marketplace. To build long-term capacity for sustained economic growth, EDA invested in partnerships with our local communities to build strategic economic development assets which support long-term growth and competitiveness. These partnerships had a laser focus: catalyze private investment; leverage resources to support the establishment and growth of globally competitive businesses; as well as strengthen innovation, manufacturing supply chains, an employer-driven, skilled workforce, exports, and foreign direct investment.

Department of Commerce Economic Development Administration Salaries and Expenses PROGRAM DECREASES FOR 2021 (Dollar amounts in thousands)

| | | | | | | Increase/D | Decrease | |
|--------------------|----------|-----------|--------|-----------|---------|----------------|----------|--|
| | | 2021 E | Base | 2021 Es | stimate | from 2021 Base | | |
| | | Personnel | Amount | Personnel | Amount | Personnel | Amount | |
| Elimination of EDA | Pos./BA | 205 | 43,118 | 99 | 31,593 | (106) | (11,525) | |
| | FTE/Obl. | 184 | 42,852 | 99 | 31,593 | (85) | (11,259) | |

Eliminating EDA ((106) positions, (\$11,525 thousand)) – EDA proposes a program decrease of \$11,708 thousand for a total of \$31,593 and a decrease of 106 positions for a total of 99 positions. This 2021 request assumes 2021 is the first year of closure actions.

This request allows for the orderly closure of EDA and ongoing grant monitoring, management, and close-out activities. These amounts represent the estimated costs for the second year of closure activities and are intended to cover the following costs:

- Personnel costs, including severance payments, lump sum leave, salaries for personnel essential to servicing open grants during the closure, human resources support for conducting the closure, and any legal costs.
- Real property, to cover either early termination fees or the full cost of the lease if necessary.
- Miscellaneous costs associated with closing down the agency, including records management, responsible disposal of IT equipment, furniture removal, and any other costs required for the orderly closure of the agency.

The close down plan includes the reduction of staff through involuntary separation and the transfer to a successor operating unit within DOC the monitoring and servicing of open grants and loans until their close-out date. EDA estimates it will take seven years to close the approximately 2,900 grants projected to be open at the end of 2020. This number includes disaster grants that will be awarded through 2021. There will be continued costs to the successor organization to monitor and service EDA's over \$2.8 billion in grants until they are all closed. Those costs will decrease over time as the number of open grants decreases. After the grants are closed, there is post-close-out work that will need to occur through the useful life of the projects, often up to 20 years. Additional monitoring and final disposition work is required for years after the close-out of a grant to ensure the grantees continue to use facilities or infrastructure for its intended purpose and to release the government interest in the property (e.g., covenants, mortgages) at the expiration of the useful life. This monitoring will also need to be performed by the successor operating unit within the Department that assumes EDA's grant and management functions.

*Excludes temp and term Positions funded from the 2018 disaster supplemental (P.L. 115-123) and the 2019 disaster supplemental (P.L. 116-20)

*Excludes temp and term Positions funded from the 2018 disaster supplemental (P.L. 115-123) and the 2019 disaster supplemental (P.L. 116-20)

Department of Commerce Economic Development Administration Salaries and Expenses JUSTIFICATION OF PROPOSED LANGUAGE CHANGES

FY 2021

This language is proposed for the orderly closedown of the Economic Development Administration and its grants and loans previously awarded.

SALARIES AND EXPENSES

For necessary expenses of the closure of the Economic Development Administration, including, but not limited to, ongoing administration, oversight and monitoring of grants and loans previously awarded by the Economic Development Administration, \$31,593,000.

Department of Commerce Economic Development Administration Salaries and Expenses APPROPRIATION LANGUAGE AND CODE CITATIONS

FY 2021

Salaries and Expenses

1 For necessary expenses of administering the economic development assistance programs as provided for by law,

42 U.S.C. 3214(c), 3231

42 U.S.C. 3214(c) - Authorizes the transfer of appropriated funds from other Federal agencies, if such funds are used for the purpose for which (and in accordance with the terms under which) the funds are specifically authorized and appropriated.

42 U.S.C. 3231 - Authorizes funds to be appropriated for economic development assistance programs to carry out 42 U.S.C. 3121 *et seq.*, through fiscal year 2008, to remain available until expended.

2 Authorization of appropriations for defense conversion activities,

42 U.S.C. 3232

42 U.S.C. 3232(a) - In addition to amounts made available under section 3231 of this title, there are authorized to be appropriated such sums as are necessary to carry out section 3149(c)(1) of this title, to remain available until expended.

42 U.S.C. 3232(b) - Funds made available under subsection (a) of this section may be used for activities including pilot projects for privatization of, and economic development activities for, closed or realigned military or Department of Energy installations.

3 Authorization of appropriations for disaster economic recovery activities,

42. U.S.C. 3233

42. U.S.C. 3233(a) - In addition to amounts made available under section 3231 of this title, there are authorized to be appropriated such sums as are necessary to carry out section 3149(c)(2) of this title, to remain available until expended.

42. U.S.C. 3233(b) - The Federal share of the cost of activities funded with amounts made available under subsection (a) of this section shall be up to 100 percent.

4 Funding for grants for planning and grants for administrative expenses,

42 U.S.C. 3234

Of the amounts made available under section 3231 of this title for each fiscal year, not less than \$27,000,000 shall be made available for grants provided under section 3143 of this title.

5 Provided, that these funds may be used to monitor projects approved pursuant to title I of the Public Works Employment Act of 1976, as amended,

42 U.S.C. 6710

42 U.S.C. 6710 - Authorized appropriations for the administration of the Local Public Works Capital Development and Investment Act of 1976.

6 Title II of the Trade Act of 1974, as amended, and

19 U.S.C. 2345 - Authorizes appropriations to carry out Trade Adjustment Assistance for Firms (TAAF).

Public Law No: 114-27, Trade Preferences Extension Act of 2015. Title IV of that Act, entitled the "Trade Adjustment Assistance Reauthorization Act of 2015" extends the authorization of appropriations for TAAF through fiscal year 2021.

7 The Community Emergency Drought Relief Act of 1977 (including monitoring and close-out),

42 U.S.C. 5184 note

42 U.S.C. 5184 note - Authorized appropriations to carry out those provisions of the Community Emergency Drought Relief Act of 1977.

- 8 For section 27 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3722).
- 9 For section 28 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3723).

Department of Commerce Economic Development Administration Salaries and Expenses IMPLEMENTATION STATUS OF GAO AND OIG RECOMMENDATIONS

31 U.S.C. 720, as amended January 3, 2019, requires the head of a federal agency to submit a written statement of the actions taken or planned on Government Accountability Office (GAO) recommendations to the House and Senate Committees on Appropriations with the agency's first request for appropriations made more than 180 calendar days after the date of the report.

The Good Accounting Obligation in Government Act (GAO-IG Act), passed on January 3, 2019, (P.L. 115-414) requires each agency to include, in its annual budget justification, a report that identifies each public recommendation issued by GAO and the agency's office of the inspector general (OIG) which has remained unimplemented for one year or more from the annual budget justification submission date. In addition, the Act requires a reconciliation between the agency records and the IGs' Semiannual Report to Congress (SAR).

Section 1. Recommendations for which action plans were finalized since the last appropriations request.

Nothing to Report.

Section 2. Implementation of GAO public recommendations issued no less than one year ago that are designated by GAO as 'Open' or 'Closed-Unimplemented.'

Open Recommendation(s) the Department has decided not to implement.

Include information on all open recommendations made one year or more ago that the Department / bureau do not plan to implement. GAO recommendations are open until officially closed by GAO.

| Report Number | GAO-16-271 |
|---|---|
| Report Title | INNOVATIVE MANUFACTURING |
| Issue Date | 2/4/2016 |
| Recommendation Number | 1 |
| Recommendation | GAO recommends that EDA work with SBA and NIST to further identify any gaps in capital access that the program could fill, and conduct outreach to help target those gaps. |
| Reason for the Decision not to Implement | As of June 2019, the Economic Development Administration (EDA) had taken some action to work with the Small Business Administration (SBA) to identify gaps in capital access, develop marketing materials, and conduct outreach based on any gaps identified for the Federal Loan Guarantees for Innovative Technologies in Manufacturing program (ITM), as GAO recommended in February 2016. However, as GAO reported in February 2018, further progress was unlikely due to a perceived lack of demand among small- and medium-sized businesses for the program and competing regulatory priorities. In addition, as a result of recessions of the program's appropriations, a Commerce official said, there are no longer sufficient funds to implement the program. In June 2019, EDA officials confirmed that they do not foresee taking further action to implement the ITM program unless additional funds are appropriated to the program. Therefore, GAO is no longer assessing this action. |

Open Recommendation(s) the Department plans to implement.

Include information on all open recommendations made one year or more ago that the Department / bureau plans to implement. GAO recommendations are open until officially closed by GAO.

| Report Number | Report Title | Issue Date | Recommendation Number | Recommendation | Target Implementation Date | Closure Request Pending with GAO (Yes/No) | Clear Budget Implications (Yes/No) |
|------------------|---|---------------|--------------------------|--|----------------------------------|---|---------------------------------------|
| 12-819 | Entrepreneurial Assistance | 2012 | 7 | Consistently collect information that would enable them to track the specific type of assistance programs provide and the entrepreneurs they serve and use this information to help administer their programs. | FY2020 | Νο | No |
| 12-819 | Entrepreneurial Assistance | 2012 | 11 | Conduct more program evaluations to better understand why programs have not met performance goals and their overall effectiveness | N/A | Yes | No |
| 12-930 | Trade Adjustment Assistance: Measures, Data and Funding Formula | 2012 | 1 | Broaden the program's evaluation approach, for instance, by developing additional quantifiable outcome-oriented performance goals and measures for key program areas and conducting further analysis of the data to isolate the impact of the TAA for Firms program from other influences, such as economic trends. | FY2020 | Νο | No |
| 12-930 | Trade Adjustment Assistance: Measures, Data and Funding Formula | 2012 | 2 | To improve the data available to manage and evaluate the TAA for Firms program, the Secretary of Commerce should develop a data system to consistently collect, maintain, and analyze sufficiently reliable and up-to-date data on program operations and participant firms. | TBD | No | No |

Section 3. Implementation of OIG public recommendations issued no less than one year for which Final Action has not been Taken or Action Not Recommended has been Taken

Nothing to report.

Section 4. Discrepancies between this report and the semiannual reports submitted by the Commerce Office of Inspector General or reports submitted by the GAO

Nothing to report.

FY 2021 ANNUAL PERFORMANCE PLAN / REPORT (APPR) BACKUP

1) <u>Summary</u>

i) <u>OVERVIEW</u>

Since EDA's inception 53 years ago, EDA has led the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. EDA is proud of the investments it has made in economically distressed regions, based on their locally-driven strategies and needs, and the outcomes of those investments which spurred local innovation and entrepreneurship creating and saving jobs and leveraging private investments.

ii) MISSION STATEMENT

EDA will take actions to conduct the orderly close of the agency.

iii) CROSS-AGENCY PRIORITY GOALS

Due to the proposed elimination of EDA, it is not included in any cross-agency priority goals.

iv) STRATEGIC GOAL(S) AND OBJECTIVE(S)

Due to the proposed elimination of EDA, it is not included in the Department's strategic plan; however, EDA contributes to the specific strategic goals and objectives as noted below.

v) Tracking Progress on Strategic Objectives

Due to the proposed elimination of EDA, it is not included in the Department's strategic plan; however, EDA contributes to the specific strategic goals and objectives as noted below.

vi) Planned Actions for Achieving Strategic Objectives and FY 2021 Performance Targets

EDA did not request grant funding for 2020 and is not requesting grant funding for 2021. EDA will conduct activities necessary for the orderly closure of its operations. As such, EDA has not established performance targets for 2021.

2) Detailed Indicator Plans and Performance

i) <u>Current / Recurring Indicators</u>

Strategic Goals: 1 and 2 Accelerate American Leadership and Enhance Job Creation

| Objectives: | | | | | | | | | |
|----------------------------|------------------------------------|--|--|--|--|--------------------------------------|----------------------------|---------|--|
| 1.2 | Advance Innova | Advance Innovation | | | | | | | |

| Description | EDDs generally consist of three or more counties that are considered member jurisdictions. Sub-state jurisdiction participation indicates the District's responsiveness to the area it serves and shows that the services it provides are of value. Active participation was defined as either attendance at meetin or financial support of the EDD during the reporting period. Sub-state jurisdiction members are independent units of government (cities, counties, etc.) a eligible entities substantially associated with economic development, as set forth by the District's by laws or alternate enabling document. | | | | | | | | |
