 <p>Complete Requirements Grooming for Travel, Grants, and HR BI Marts</p>	<p> Completed Requirements Grooming for Travel, Grants, and HR BI Marts.</p> <p>Note: Grants data and reporting needs identified during Requirements Grooming will be shared with the GEMS team to help inform data and reporting needs in the new DOC grants solution (with the caveat that the information does not represent comprehensive data and reporting needs)</p>

*EDW data sources are applications that are anticipated to provide data directly to the BAS EDW. As of March 2021, this includes E2 MIS, moveLINQ, WebTA, NFC, and the BAS Core Applications (PRISM, EBS, Sunflower). Data from applications that interface with a BAS Core Application (e.g., System for Award Management (SAM), and bureau specific interfaces) will be provided through the applicable BAS Core Application-EDW integration. Potential grants system integration with the EDW to be determined based on future BAS-GEMS integration discussions.
