Do you have engaging presentation skills? Do you have strong oral and written skills? We need you!

BUSINESS APPLICATIONS SOLUTION (BAS) Train-the-Trainer Detail Opportunities

The BAS program is a U.S. Department of Commerce (DOC) modernization initiative to deploy an integrated suite of financial and business management applications in support of our mission.

As a strategy widely used in large software system implementations, train-the-trainer is a methodology for training potential instructors or subject matter experts to enable them to train other users in their organization.

Selecting the right individuals to participate in train-the-trainer is critical to the success of the BAS training program.

Please contact us if you are interested in joining the BAS team!
