

APPENDIX B – COMPETITIVE AREAS

A. LOCAL COMMUTING AREA DEFINITIONS

With the exception of Washington, DC as defined below, references to “each local commuting area” will generally be defined based on the Department’s Travel Handbook definition of the area within a 50-mile radius surrounding the agency worksite or, in the case of remote workers, the employee’s official duty station as documented on their SF-50 (generally the employee’s place of residence).

Where an organization operates more than one agency worksite, or employs more than one remote worker, in a geographic location that would result in overlapping of potentially separate 50-mile radii within the same organizationally defined competitive area, the local commuting area will be defined as the area within a circle that encompasses the totality of all overlapping 50-mile radii.

The Department defines the Washington, DC metropolitan area as a local commuting area as follows: the District of Columbia; Calvert, Charles, Frederick, Montgomery, Prince George’s, and St. Mary’s counties in Maryland; and Alexandria, Arlington, Fairfax, Loudon, Prince William, and Stafford counties in Virginia.

Where no geographic boundary is defined, the competitive area encompasses all employees within the described organization, regardless of geographic location.
