Budget Estimates, Fiscal Year 2026  
Executive Summary**

The Administration's 2026 Budget builds on the President's commitment to advance the vision of a Federal Government that spends taxpayer dollars more efficiently and effectively and provides necessary services in support of key national priorities while reducing deficits and keeping the Nation on a responsible fiscal path. The Administration has made the necessary tradeoffs and choices inherent in pursuing these goals. This means changing the role and size of the Federal Government and prioritizing the programs that provide a good return for the taxpayer, as well as those that serve the most critical functions while consolidating or eliminating duplicative, ineffective, or less critical programs.

In support of these goals, the Economic Development Administration (EDA) FY 2026 budget requests \$30.0 million to cover the costs associated with the first year of closing down the agency and restoring confidence in America's fiscal management.

**Performance:**

Consistent with the closure of EDA, there will not be GPRA targets for FY 2026. For FY 2025, please see the FY 2026/2024 Annual Performance Plan and Report.

Goal Statement

For 2026, EDA requests a decrease of \$38.0 million and 139 positions below the 2024 enacted budget level, for a total of \$30.0 million and 104 positions for the Salaries and Expenses (S&E) account.

Base Program

The S&E appropriation is needed for the orderly closure of EDA and the ongoing administration, monitoring, and close-out of grants and loans previously awarded by EDA. These activities will be carried out through a steadily reducing footprint consisting of headquarters located in Washington, DC, and six Regional Offices located in Atlanta, Austin, Chicago, Denver, Philadelphia, and Seattle.

Statement of Operating Objectives

Support the orderly closure of EDA and the ongoing administration, monitoring, and close-out of grants and loans previously awarded by EDA.

		2024 Enacted		2026 Estimate		Increase/Decrease	
		Personnel	Amount	Personnel	Amount	Personnel	Amount

For 2026, EDA requests \$30,000,000, a decrease of \$38.0 million and 139 positions. This request allows for the orderly closure of EDA and ongoing grant monitoring, management, and close-out activities. These amounts represent the estimated costs for closure activities in 2026 and are intended to cover the following costs:

- Personnel costs, including severance payments, lump sum leave, salaries for personnel essential to servicing open grants during the closure, human resources support for conducting the closure, and any legal costs.
- IT operations and maintenance costs for EDA's grant system and working capital fund costs for essential, centrally performed services of ongoing operations and active closedown activities.
- Real property, to cover either early termination fees or the full cost of the lease if necessary.
- Miscellaneous costs associated with closing the agency, including records management, responsible disposal of IT equipment, furniture removal, and any other costs required for the orderly closure of the agency.

EDA estimates it will take seven years to close the approximately 2,800 grants projected to be open at the end of 2025. This number includes awards made via FY 2025 disaster grants and Tech Hubs awards that are expected to be awarded in FY 2026.

IMPLEMENTATION STATUS OF GAO AND OIG RECOMMENDATIONS**

31 U.S.C. 720, as amended January 3, 2019, requires the head of a federal agency to submit a written statement of the actions taken or planned on Government Accountability Office (GAO) recommendations to the House and Senate Committees on Appropriations with the agency's first request for appropriations made more than 180 calendar days after the date of the report.

The Good Accounting Obligation in Government Act (GAO-IG Act), passed on January 3, 2019, (P.L. 115-414) requires each agency to include, in its annual budget justification, a report that identifies each public recommendation issued by GAO and the agency's office of the inspector general (OIG) which has remained unimplemented for one year or more from the annual budget justification submission date. In addition, the Act requires a reconciliation between the agency records and the IGs' Semiannual Report to Congress (SAR).
