

Providing **Advocacy** and **Advisory** Services. Helping Small Businesses Succeed.

*The **Office of Small and Disadvantaged Business Utilization (OSDBU)** provides small businesses guidance and resources to pursue government contracts.*

About OSDBU

The OSDBU is an advocacy and advisory office helping small disadvantaged businesses in the acquisition process. The OSDBU is not a procurement office but serves as a liaison between the small business community and Commerce procurement offices.

We focus on sharing information, reviewing procurement requisitions to maximize small business participation, monitoring small business legislation, establishing strategic alliances and more.
