Organization Chart

**Department of Commerce  
Office of Inspector General  
Budget Estimates, Fiscal Year 2027**

**Executive Summary**

The Office of Inspector General's (OIG's) fiscal year (FY) 2027 budget request is \$40.450 million and 154 positions, of which \$38 million and 143 positions are funded from direct appropriations and \$2.45 million and 11 positions are funded from a transfer from the U.S. Patent and Trademark Office (USPTO). Additionally, in FY 2027 OIG will receive a \$2 million transfer and 4 positions from the National Telecommunications and Information Administration (NTIA) from NTIA's Public Wireless Supply Chain Innovation Fund (mandatory funds).

OIG's mission is to improve the programs and operations of the Department of Commerce through independent and objective oversight. OIG keeps the Secretary, Deputy Secretary, and Congress informed of serious problems and deficiencies relating to the administration of the Department's programs and operations, recommends corrective actions, and reports on the progress made in implementing corrective actions. OIG has authority to oversee all programs and operations of the Department, including those performed under contracts, grants, cooperative agreements, and other financial assistance awards. The Inspector General Act of 1978 (Pub. L. No. 95-452), as amended, and other legislation authorize the specific functions and programs that make up these activities.

OIG directs its oversight to the Department's most serious management and performance challenges. OIG's most recent [\*Top Management and Performance Challenges Facing the Department of Commerce in Fiscal Year 2026\*](#) report described challenges regarding cybersecurity; IT modernization; artificial intelligence integration; outdated and dilapidated National Institute of Standards and Technology (NIST) facilities; international trade; National Oceanic and Atmospheric Administration (NOAA) operations and services; safeguarding intellectual property and fostering innovation; Census data collection; strengthening oversight to effectively manage funds; broadband grant programs; managing Creating Helpful Incentives to Produce Semiconductors (CHIPS) and Science Act funding; oversight of the Nationwide Broadband Network for First Responders (FirstNet); and NIST's Hollings Manufacturing Extension Partnership (MEP) Program.

OIG's FY 2027 budget request includes the following resources:

**Direct Appropriation**—\$38 million. These funds will support OIG's consolidated audit, evaluation, and investigative activities to promote effectiveness, efficiency, economy, and integrity and fight fraud, waste, and abuse in the management and administration of Department programs and operations, including those performed by its contractors and grantees. OIG plans and conducts audits and evaluations based on factors that include risk assessments of major Department programs and functional areas; mandatory

requirements in law or regulation; top management and performance challenges; Department strategic goals and objectives; issues highlighted in the Government Accountability Office's High-Risk List; requests from Congress, Departmental officials, or other stakeholders; and significant issues identified during recent work. Statutory work includes annual audits of the Department's financial statements pursuant to the Chief Financial Officers Act of 1990 (Pub. L. No. 101-576) and information security reviews as required by the Federal Information Security Management Act of 2002 (Pub. L. No. 107-347). OIG investigates alleged or suspected fraud, waste, abuse, and misconduct by the Department's employees, contractors, recipients of financial assistance, and others involved in the Department's programs and operations. Such wrongdoing may result in criminal or civil prosecution as well as administrative sanctions for violations of Department regulations and employee standards of conduct.

Transfer—\$2.45 million, from USPTO. These funds will support OIG's oversight of USPTO's operations, including its operations that focus on examining patent and trademark applications, granting patents, registering trademarks, and guiding domestic and international policy to protect U.S. intellectual property.

### **Inflationary Adjustments**

OIG's FY 2027 base funding level includes a total of \$1.476 million for the full funding requirement for inflationary adjustments to current programs for OIG activities. This includes the full-year cost of inflationary increases for labor and non-labor activities, including benefits and service contracts. Inflationary adjustments are completely offset through reductions in cost on labor, services, supplies, and equipment purchases.

**Department of Commerce  
Office of Inspector General  
Salaries and Expenses  
JUSTIFICATION OF PROGRAM AND PERFORMANCE**  
(Dollar amounts in thousands)

Activity: Office of Inspector General

The Department of Commerce Office of Inspector General (OIG) was established by the Inspector General Act of 1978 (Pub. L. No. 95-452), as amended, as an independent oversight agency under the general supervision of the Secretary of Commerce.

**Goal Statement**

OIG's mission is to improve the programs and operations of the Department of Commerce through independent and objective oversight. OIG keeps the Secretary, Deputy Secretary, and Congress informed of serious problems and deficiencies relating to the administration of the Department's programs and operations, recommends corrective actions, and reports on the progress made in implementing corrective actions. OIG has a Whistleblower Protection Coordinator Program, established by the Whistleblower Protection Enhancement Act of 2012 (Pub. L. No. 112-199) and revised by the Whistleblower Protection Coordinator Act (Pub. L. No. 115-192).

**Base Program**

OIG's current resources support an oversight program focusing on the Department's top management and performance challenges and addressing allegations of fraud, waste, and abuse. OIG's most recent [Top Management and Performance Challenges Facing the Department of Commerce in Fiscal Year 2026](#) report identified the following top challenges: cybersecurity; IT modernization; artificial intelligence integration; outdated and dilapidated National Institute of Standards and Technology (NIST) facilities; international trade; National Oceanic and Atmospheric Administration (NOAA) operations and services; safeguarding intellectual property and fostering innovation; Census data collection; strengthening oversight to effectively manage funds; broadband grant programs; managing CHIPS and Science Act funding; oversight of the Nationwide Broadband Network for First Responders (FirstNet Authority); and NIST's Hollings Manufacturing Extension Partnership (MEP) Program.

OIG's funding level for FY 2027 is \$40.45 million, of which \$38 million is for general oversight activities. This funding also includes a transfer of \$2.45 million from USPTO. An inflationary increase of \$1.46 million is offset by reductions in services, supplies, and equipment purchases.

OIG's budget request for FY 2027 includes a program decrease of \$10.0 million, resulting in net of \$40.450 million, made up of \$38 million for general oversight activities and no change to the \$2.45 million transfer from USPTO.

### **Statement of Operating Objectives**

OIG's independent oversight helps the Department improve the integrity of its operations and programs; ensures their efficient and effective operation; provides stakeholders with independent assessments of those operations and identifies the need for corrective action; and combats waste, fraud, and abuse. OIG provides the results of that oversight to stakeholders such as the Secretary of Commerce, the Department's senior leaders, Congress, and the American public.

### **Explanation and Justification**

OIG's work is primarily people-driven, with 82 percent of its resources dedicated to personnel-related costs. OIG is headquartered in the Washington, DC area and operates two field offices in Denver, Colorado, and Seattle, Washington.

### **Oversight Activities (\$40.45 million):**

**Executive Direction and Counsel.** OIG leadership prioritizes work efforts, oversees all aspects of audits and investigations, and ensures effective delivery of support functions. The OIG Counsel reviews all work products and advises the leadership, auditors, and investigators on all legal questions.

**Audits and Evaluations.** OIG supervises and conducts independent and objective audits, evaluations, and other reviews of the Department's programs and activities to ensure they operate economically, efficiently, and effectively. OIG performs work that is part of its annual work planning process as well as in response to congressional or departmental requests. This oversight work addresses areas such as financial controls, operational efficiencies, information systems, program performance, major acquisitions, and grant operations.

**Investigations.** OIG investigates alleged or suspected fraud, waste, abuse, and misconduct by Department employees, contractors, recipients of financial assistance, and others involved in the Department's programs and operations. OIG's most significant areas of criminal, civil, and administrative investigations are related to contract fraud, grant fraud, public corruption, and senior-level employee misconduct.

**Hotline and Whistleblower Protection.** OIG maintains a hotline for receiving allegations of fraud, waste, abuse, and gross mismanagement in Department programs or operations, including by any organization or entity receiving Department funds. Allegations may be reported 24 hours a day, 7 days a week by employees, contractors, or the public. OIG also investigates allegations of whistleblower retaliation taken against Department employees, contractors, and grantees.

**OIG's major deliverables** include:

- An annual report on the top management and performance challenges facing the Department—*typically published in October*;
- Reports on audits and evaluations—*performed according to OIG's annual audit and evaluation plan, which may be modified to address emerging issues, stakeholder requests, statutory updates, or other changes to oversight priorities*;
- Semiannual reports summarizing the audit and investigative work OIG completed in the previous 6 months—*posted on the OIG website in May and November*;
- An annual audit of the Department's compliance with the Federal Information Security Modernization Act of 2014;
- Biennial audits of the Department's compliance with the Geospatial Data Act of 2018;
- Biennial audits of the Department's compliance with the Cybersecurity Information Sharing Act of 2015;
- An annual audit of financial statements of the Department and its bureaus, including a separate USPTO report—*provided in November*;
- Recommendation tracking, ensuring that OIG's recommendations are timely and appropriately implemented by Department management—*ongoing*;
- Reports of Investigation—*issued to Department leadership at the conclusion of an OIG investigation into allegations of fraud, waste, abuse, or other misconduct*;
- Referrals to the U.S. Department of Justice—*made to the Department of Justice and describing substantiated violations that may warrant civil or criminal prosecution*;
- Whistleblower education and information—*provided by OIG's whistleblower protection coordinator, per statute as cited above*;
- Responses to congressional requests (for example, testimony or briefings)—*as necessary*.

As mentioned above, OIG focuses its oversight efforts on the Department's top management and performance challenges. As described in [Top Management and Performance Challenges Facing the Department of Commerce in Fiscal Year 2026](#), these include the following:

### **1. Modernizing Technology and Operations**

#### **Information Security**

The Department's cybersecurity program has made slow progress since 2020. Despite ongoing efforts to improve, the program still struggles to apply security controls consistently across all systems. Management initiatives may boost efficiency, but our oversight

continues to uncover real security problems. The Department's streamlining efforts could better focus resources, but may also create challenges in sustaining cybersecurity improvements.

### **Modernizing Departmental Systems**

Implementation of two new departmental systems, intended to modernize financial and grant management, is progressing. However, both projects have suffered cost increases, significant schedule delays, and performance issues.

### **Artificial Intelligence and Other Emerging Technologies**

As the Department accelerates its use of AI, a significant challenge will be to implement guidance and protect users' safety and privacy. The U.S. Patent and Trademark Office (USPTO), too, is working to ensure that its new technologies, including AI tools, are effective.

### **NIST Facility Upgrades**

The National Institute of Standards and Technology's (NIST's) outdated, dilapidated facilities threaten mission performance and worker health and safety. NIST has developed a plan to address the condition of its facilities, but realization of the master plan, or any specific project within it, will depend on priorities of the U.S. Department of Commerce, Congressional and Presidential policy decisions, and federal budgetary decisions.

## **2. Providing Core Services and Data**

### **Global Trade**

The Bureau of Industry and Security has implemented and expanded many export controls in recent years to address the national security threats posed by foreign adversaries that try to obtain U.S. goods and technologies. At the same time, the International Trade Administration's enforcement of trade remedies empowers American companies and workers, but it has not yet taken some steps needed to effectively resolve foreign trade barriers.

### **Satellite, Weather, and Environmental Capabilities**

The National Oceanic and Atmospheric Administration's (NOAA's) fleet of geostationary weather satellites has been deployed, but long-term continuity of weather data depends on the timely development of the next-generation satellite program, whose scope and readiness remain in flux.

In addition, the National Weather Service (NWS) is maintaining its aging, mission-critical weather radar system even as it faces uncertainty around its planned replacement. NWS also faces long-standing workforce challenges, exacerbated by the departure of approximately 13 percent of its employees in early 2025.

NOAA is replacing its aging fleets of specialized “hurricane hunter” planes and research ships. To prevent gaps in critical real-time hurricane data and support safe navigation, coastal resource management, and disaster preparedness and response, NOAA is maintaining its current fleets’ operations as it addresses technical challenges associated with the replacements.

Finally, the Department has begun providing basic space situational awareness data and services. Programmatic, acquisition, and resource challenges could impact the Office of Space Commerce’s ability to complete a key step toward fulfilling its requirements.

#### **Patent and Trademark Timeliness and Integrity**

USPTO has made some progress in reducing trademark application pendency. It still needs to improve the timeliness of its patent and trademark application processes and effectively address fraudulent claims without sacrificing quality.

#### **2030 Census and Other Population Surveys**

The U.S. Census Bureau has planned extensive research and testing to prepare for the 2030 census, but challenges persist with an important census quality check. The bureau also must carry out production and quality assurance processes for a survey that provides population estimates of American communities. At the same time, staffing issues may affect its ability to complete the surveys that provide data the government, businesses, and other groups need.

### **3. Managing Spending**

#### **Oversight and Fraud Prevention**

As the Department focuses on the President’s America First Investment Policy and revitalizing the economy, its challenges include adapting its grant and contract oversight to changing priorities and programs, consolidating programs for more efficiency, ensuring that its acquisitions staff has the skills and expertise needed, and managing fraud risk by increasing fraud detection, prevention, and response.

#### **Broadband Grant Programs**

The National Telecommunications and Information Administration (NTIA) is administering almost \$50 billion for six grant programs aimed at getting broadband access to every American. NTIA has begun addressing unrealistic requirements that cause delays and hinder progress even as an increased emphasis on eliminating government waste highlights the need for strong oversight.

#### **CHIPS and Science Act Programs**

To help increase American leadership in semiconductors and related technologies, the CHIPS program is awarding and managing up to \$125 billion in direct funding, loans, and loan guarantees. The program’s ongoing challenge is to issue funding efficiently while reducing the risk of errors, fraud, waste, and abuse.

In addition, NTIA is managing the Public Wireless Supply Chain Innovation Fund, a CHIPS Act-funded grant program aimed at increasing U.S. leadership in 5G and successor technologies. As it implements this program, NTIA needs to ensure that funds are granted only to eligible applicants and used according to program objectives.

### **First Responder Network Authority**

FirstNet Authority administers a multibillion-dollar contract with AT&T to develop and manage a nationwide broadband network to give public safety entities a dedicated, reliable means of communicating during emergency response. Longstanding deficiencies in FirstNet Authority's contract administration seriously impact the contract's performance as well as the network's services to first responders.

### **Hollings MEP Program**

Inadequate oversight has placed NIST's Hollings Manufacturing Extension Partnership program, which aims to help U.S. manufacturers improve, upgrade, and innovate, at risk. Inefficient use of funds and unreliable, overstated economic impact data increase the potential for fraud, waste, and abuse throughout the program.

### **Work Completed by OIG in FY 2025:**

OIG's audit and evaluation work produced the following results:

- Published **27** audit, inspection, and evaluation products.
- Made **104** recommendations for improvements to Department programs.
- Identified **\$11.6 million** in monetary benefits.

In particular, OIG reported that:

- USPTO needs to strengthen its patent examination quality review program. [The United States Patent and Trademark Office Needs to Strengthen Its Patent Examination Quality Review Program](#)
- Improvements are needed in NOAA's plan for achieving the Tornado Warning Improvement and Extension Program goals. [Independent Evaluation of the National Oceanic and Atmospheric Administration's National Weather Service Tornado Forecasting and Warning Services](#)
- The Department's vision for an Enterprise Grants Management system has not been realized. [OIG-25-025-A \(SECURED\)](#)

- NOAA must take action to avoid gaps in hurricane hunter missions and improve oversight, program management, and systems engineering practices. [NOAA Must Take Action to Avoid Gaps in Hurricane Hunter Missions and Improve Oversight, Program Management, and Systems Engineering Practices](#)
- BIS needs to improve its incident response capabilities to handle sophisticated cyberattacks. [OIG-25-022-I](#)
- The Department complied with Payment Integrity Information Act Requirements for FY 2024. [The Department Complied with Payment Integrity Information Act Requirements for Fiscal Year 2024](#)
- EDA needs to improve oversight of CARES Act revolving loan funds to ensure loans are made to eligible borrowers and used as intended. [EDA Needs to Improve Oversight of CARES Act Revolving Loan Funds to Ensure Loans Are Made to Eligible Borrowers and Used as Intended](#)
- USPTO should improve governance to promote effective oversight of its AI tools. [OIG-25-018-A](#)
- NTIA established the Innovation Fund Program but needs a plan to ensure that the program meets statutory objectives. [OIG-25-017-I](#)
- The Puerto Rico Department of Agriculture met pandemic funds requirements but was slow to disburse Fishery Consolidated Appropriations Act funds. [OIG-25-016-A The Puerto Rico Department of Agriculture Met Pandemic Funds Requirements but Was Slow to Disburse Fishery Consolidated Appropriations Act Funds](#)
- The Census Bureau should address challenges from the 2020 post-enumeration survey ahead of the 2030 census. [The Census Bureau Should Address Challenges from the 2020 Post-Enumeration Survey Ahead of the 2030 Census](#)
- Broadband stakeholders identified various challenges affecting broadband deployment. [Broadband Stakeholders Identified Various Challenges Affecting Broadband Deployment](#)
- The Census Bureau did not develop a workforce plan to address field representative staffing gaps. [OIG-25-013-I](#)
- The National Weather Service should further strengthen its protection of essential operational technology. [OIG-25-012-I](#)
- NIST overstated MEP's economic impacts to Congress and other stakeholders. In addition, OIG's evaluation of MEP's economic impact reporting process also identified instances of noncompliance at centers, which led to NIST action. [OIG's Evaluation of MEP's Economic Impact Reporting Process Also Identified Instances of Noncompliance at Centers, Led to NIST Action](#)
- Puerto Rico's Department of Natural and Environmental Resources properly disbursed funds but was slow in expending Fishery Disaster Assistance Funds. [Puerto Rico's Department of Natural and Environmental Resources Properly Disbursed Funds but Was Slow in Expending Fishery Disaster Assistance Funds \(#2024-441\)](#)

- NOAA should assess opportunities to improve hurricane forecasts and warnings. [OIG-25-007-A](#)
- Data quality challenges and ineffective program management hinder the Department's enterprise cybersecurity capabilities. [OIG-25-006-A](#)
- The NPSBN was not always available to first responders during the catastrophic 2023 Maui wildfires. [OIG-25-004-A Redacted \(SECURED\)](#)
- USPTO should address risks to its pendency reduction efforts for trademark applications. [OIG-25-002-A](#)

OIG's direct investigative work produced the following results:

- Addressed 1,442 hotline contacts related to the Department and its programs;
- Referred 409 hotline issues to Department and bureau management for further investigation and resolution, as appropriate;
- Opened 49 investigations (whistleblower reprisal, preliminary, or full field investigations) and 20 requests for assistance, totaling 69 investigative actions;
- Closed 42 investigations and 32 requests for assistance; and
- Referred 12 cases to the U.S. Department of Justice or state/local prosecutors that were accepted for prosecution.

In addition, cases pursued by OIG resulted in 6 convictions, the indictment of 3 individuals, 5 suspension/debarment actions, 5 disciplinary actions, and monetary recoveries totaling \$54.6 million.

#### **Additional FY 2025 Oversight Highlights:**

- Continued prioritization of contract and grant fraud investigations.
- Continued oversight of the Department's contracts.
- Independent auditor issued unmodified (clean) opinions on the Department's FY 2024 financial statements and on USPTO's FY 2024 financial statements; noted targeted internal-control weaknesses at NOAA's service center in the Department audit, with no reportable noncompliance for either audit.
- Completed two quality control reviews of external single audits performed by other entities that resulted in "Fail" ratings and received confirmation of remedial actions taken by the profession's ethics oversight body on a prior OIG referral.

- Advanced FirstNet contract-oversight reforms beyond the Maui wildfires, including follow-on oversight of the February 2024 nationwide outage and Band 14 service availability; secured commitment to revised corrective action plans under OIG review.
- Strengthened NOAA mission continuity by elevating risks and recommending mitigations for hurricane-hunter fleet recapitalization (C-130J/G550 and new radar integration), potential GOES-to-GeoXO coverage gaps, and obsolescence across more than 4,000 NEXRAD components.
- Monitored NOAA Office of Space Commerce's TraCSS beta rollout and highlighted schedule and resourcing risks to achieving production release.
- Assessed CHIPS awards made at rapid pace (direct funding and loans) and documented workforce/control gaps; noted Department action related to NSTC operator and continued transition of responsibilities to NIST; reviewed Innovation Fund awards and identified needs for a comprehensive strategic plan and robust program controls.
- Continued trade-enforcement oversight at ITA (barrier-resolution effectiveness) and BIS (Russia/Belarus and China enforcement, deemed-export policy actions).
- Delivered concrete investigative outcomes including a civil False Claims Act settlement (\$8.0 million, with \$4.0 million restitution to Census); a Small Business Administration pandemic-loan misuse conviction with \$455,166 restitution; and a collusive-bidding case producing a guilty plea, \$100,000 fine, and five-year exclusion from federal contracting.
- Substantiated a whistleblower retaliation claim at NOAA's National Marine Fisheries Service; also closed two non-public senior-official investigations (one unsubstantiated, one not completed due to lack of cooperation).

**Programmatic Decrease (-\$10 million, 33 FTE/32 Positions)**—This program decrease will reduce funding for investigations, including both in response to incoming complaints and initiated proactively, audits and evaluations, and functions that support OIG oversight. Following the workforce reshaping efforts in 2025, OIG currently has a 9% vacancy rate. The program decrease will necessitate reduction by an additional sixteen (16) positions. The smaller workforce will be used only for statutorily mandated functions and providing audit, evaluation, and investigative capabilities to address top priorities among the highest risk activities within the Department.

APPROPRIATION LANGUAGE AND CODE CITATION**

Appropriation: Office of Inspector General

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978 (5 U.S.C. App.), \$38,000,000.

5 U.S.C. App. §1-12, as amended.

Section 2 of the Inspector General Act of 1978 (5 U.S.C. App.), as amended, provides that, "In order to create independent and objective units – (1) to conduct and supervise audits and investigations relating to programs and operations of the establishments listed in section 12 ... there is established in each of such establishments an Office of Inspector General." Section 12(2) defines "establishment" to include the Department of Commerce.

INSPECTOR GENERAL REFORM ACTION OF 2008 REPORTING REQUIREMENTS**

In accordance with the requirements of Section 6(g)(1) of the Inspector General Act of 1978, as amended, OIG is required to report the following in its budget submission:

|                                                                 |               |
|-----------------------------------------------------------------|---------------|
| OIG 2027 Request to Department of Commerce                      | \$ 52,250,000 |
| Department of Commerce 2027 President's Budget Allowance to OIG | \$ 40,450,000 |

|                   | 2025 Actual | 2026 Enacted | 2027 Base | 2027 Estimate | Increase/Decrease |
|-------------------|-------------|--------------|-----------|---------------|-------------------|
|                   | BA          | BA           | BA        | BA            | BA                |
| Aggregate Funding | 50,450      | 50,450       | 50,450    | 40,450        | (10,000)          |
| OIG Funding       | 50,450      | 50,450       | 50,450    | 40,450        | (10,000)          |

Dollar amounts in thousands

Amounts for Council of the Inspectors General on Integrity and Efficiency (CIGIE) funding support as provided by the Inspector General Reform Act of 2008 are as follows:

|                              | 2025 Actual | 2026 Enacted | 2027 Base | 2027 Estimate | Increase/Decrease |
|------------------------------|-------------|--------------|-----------|---------------|-------------------|
|                              | BA          | BA           | BA        | BA            | BA                |
| Training                     | 380         | 400          | 279       | 166           | (113)             |
| Amounts for Support of CIGIE | 192         | 192          | 192       | 154           | (38)              |

Dollar amounts in thousands

OIG certifies that the training amount for FY 2027 listed above will provide minimally adequate training to maintain audit and investigative capabilities. Given the proposed funding, OIG's ability to conduct investigations, audits, and evaluations would be primarily focused on those engagements mandated by statute and on certain high-risk areas. Resources available for discretionary audits, evaluations, and inquiries would be significantly constrained, limiting our capacity to address additional oversight requirements outside these core priorities, including emergent and urgent priorities. Due to more limited resources, a higher portion of investigations and hotline complaints may be referred to the Department for resolution.

Office of Inspector General  
Salaries and Expenses  
IMPLEMENTATION STATUS OF GAO AND OIG RECOMMENDATIONS**

31 U.S.C. § 720, as amended January 3, 2019, requires the head of a federal agency to submit a written statement of the actions taken or planned in response to Government Accountability Office (GAO) recommendations to the House and Senate Committees on Appropriations with the agency's first request for appropriations made more than 180 calendar days after the date of the report.

The Good Accounting Obligation in Government Act (GAO-IG Act), passed on January 3, 2019 (P.L. 115-414), requires each agency to include, in its annual budget justification, a report that identifies each public recommendation issued by GAO and the agency's OIG that has remained unimplemented for one year or more from the annual budget justification submission date. In addition, the Act requires a reconciliation between the agency records and the IG's Semiannual Report to Congress (SAR).

**Section 1. Recommendations for which action plans were finalized since the last appropriations request.**

Nothing to report.

**Section 2. Implementation of GAO public recommendations issued no less than one year ago that are designated by GAO as 'Open' or 'Closed-Unimplemented.'**

Nothing to report.

**Section 3. Implementation of OIG public recommendations issued no less than one year for which Final Action has not been Taken or Action Not Recommended has been Taken**

Nothing to report.

**Section 4. Discrepancies between this report and the semiannual reports submitted by the Commerce Office of Inspector General or reports submitted by the GAO**

Nothing to report.

Office of Inspector General  
JUSTIFICATION OF PROGRAM AND PERFORMANCE – MANDATORY APPROPRIATIONS**  
(Dollar amounts in thousands)

Activity: Office of Inspector General

The Department of Commerce Office of Inspector General (OIG) was established by the Inspector General Act of 1978 (Pub. L. No. 95-452), as amended, as an independent oversight agency under the general supervision of the Secretary of Commerce.

**Goal Statement**

OIG will provide oversight of activities supported with funds appropriated to the Department of Commerce under the Creating Helpful Incentives to Produce Semiconductors (CHIPS) and Science Act of 2022 (Pub. L. No. 117-167).

**Base Program**

The CHIPS and Science Act of 2022 provided OIG with \$2 million per year from FY 2022 through FY 2032 to provide oversight of the Public Wireless Supply Chain Innovation Fund. OIG's most recent [\*Top Management and Performance Challenges Facing the Department of Commerce in Fiscal Year 2026\*](#) report identified challenges to implementing the CHIPS Act and promoting growth in domestic semiconductor manufacturing and research, including: rapid funding awards using instruments not commonly used in federal programs, exercising effective oversight of CHIPS funding via policy and monitoring, comprehensive workforce management to ensure the agency has personnel with the skills needed to accomplish the mission and meet organizational goals and objectives, and lack of a strategic plan to ensure Public Wireless Supply Chain Innovation Fund grant programs are used according to the program's objectives. OIG anticipates reviewing samples of the Department's loans, grants, cooperative agreements, other federal financial assistance awards, and associated expenditures under these programs. OIG's review will include the following:

- Implementation – application review, award process, and funds disbursement;
- Award Oversight – compliance with award policies and procedures;
- Funds Oversight – appropriate use of funds; and
- Closeout – compliance with closeout procedures.

In addition to audits and evaluations, OIG will conduct criminal, civil, and administrative investigations as necessary.
