PROCUREMENT MEMORANDUM 2013-08

ACTION

MEMORANDUM FOR: HEADS OF CONTRACTING OFFICES

FROM:

~~Signed~~
Barry E. Berkowitz
Senior Procurement Executive and
Director for Acquisition Management

SUBJECT: Fiscal Year 2013 Small Business and Socio-Economic Goals

Background

The Department of Commerce (Department, DOC) has a well-established record for exceeding the statutory goals for small business, small disadvantaged business (SDB), and women-owned small business (WOSB). In FY12 we maintained and expanded this record by exceeding for the first time in the Department's history the statutory goal for service-disabled veteran-owned small business (SDVOSB). This is a true testament of the commitment and determination by DOC's acquisition workforce to create opportunities for small business concerns. Another noteworthy success is that DOC exceeded its FY12 subcontracting goals in all categories.

The Department is especially proud and grateful to the Census Bureau, Patent and Trademark Office, Office of the Secretary/Commerce Acquisition Solutions, National Institute for Standards and Technology, and the smaller bureaus for doing an exceptional job in far exceeding the FY12 bureau-specific prime contracting small business goal of 49%. These bureaus awarded on averaged 55% of their total eligible contract dollars to small business concerns, with the exception of NIST who awarded 66% to small business concerns. All DOC bureaus exceeded the subcontracting small business goal of 30%.

In spite of these tremendous achievements, the Department did not meet its SBA-negotiated prime contracting small business goal of 39% and HUBZone goal of 3%. However, going forward into FY13 we are confident that we can increase our small business dollar awards and once again be successful in meeting our small business and socio-economic goals for prime and subcontracting.

Purpose

The purpose of this Procurement Memorandum is to provide the Department of Commerce small business and socio-economic goals for the current fiscal year.
