

4.4 Relocation/Permanent Change of Station (PCS)-Matching

The minimum standard requires an undelivered obligation (UDO)/travel order to be established before any expenses are incurred, but does not require receipt and acceptance documents to be recorded in the financial system. Once funds are determined to be available, approval of the voucher by the program office serves to verify that goods/services have been received and accepted.

Program offices (PO) create and approve vouchers for payment. AP receives and enters the vouchers into the financial system, referencing the UDO/travel order previously established in the financial system. AP approves the voucher, authorizes payment, and schedules payment to Treasury for disbursing.

Examples

Example: UDO/travel order established in the financial system. AP receives the PO approved voucher and related receipts with UDO/travel order identified, logs the date/time received, and enters voucher in the financial system. AP approves voucher referencing UDO/travel order and authorizes payment. Payment is scheduled to Treasury for disbursing. Treasury disburses and provides confirmation/accomplishment information for recording in the financial system.
