U.S. Department of Commerce Bureau of Economic Analysis

Privacy Threshold Analysis for the BEA's Estimation IT System (EITS)

U.S. Department of Commerce Privacy Threshold Analysis BEA/EITS

Unique Project Identifier: 006-08-01-24-01-5252-00

Introduction: This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Bureau Chief Privacy Officer (BCPO).

Description of the information system: Provide a brief description of the information system. The E-Government Act of 2002 defines "information system" by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: "Information system" means a discrete set of information resources organized for the collection,

processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

data collection; analysis, tabulation, and estimation; and data dissemination.

BEA Estimation Information Technology System (BEA-EITS), encompasses all of BEA's information technology in support of its mission to promote a better understanding of the U.S. economy by providing the most timely, relevant, and accurate economic accounts data in an objective and cost-effective manner. The bureau, "produces some of the most closely watched U.S. economic statistics that influence critical financial decisions made by governments, businesses, and households." 1 BEA-EITS is utilized in BEA's core business processes:

Address the following elements:

- a) Whether it is a general support system, major application, or other type of system The BEA Estimation IT System (BEA-EITS) is a major statistical application system.
- *b*) System location Suitland Federal Center, 2600 Silver Hill Rd, Suitland MD 20746 and Bowie Computer Center, 17101 Melford Blvd, Bowie MD 20715
- c) Whether it is a standalone system or interconnects with other systems (identifying and describing any other systems to which it interconnects) The BEA Estimation IT System

- (BEA-EITS) is made up of a portfolio of highly integrated and interdependent statistical and economic estimation subsystems.
- d) The purpose that the system is designed to serve The BEA-EITS is the core economic processing system and is the primary tool used to produce the production of the BEA's economic accounts.
- *e*) The way the system operates to achieve the purpose The BEA-EITS is a core statistical and economic processing system.
- f) A general description of the type of information collected, maintained, use, or disseminated by the system The information collected is statistical data from US and foreign base companies. The BEAEITS produces critical national (GDP), international, industry, and regional economic statistic accounts that enable the government, business decision-makers, and the public to understand the performance of the Nation's economy.
- g) Identify individuals who have access to information on the system A general description of the type of information collected, maintained, used, or disseminated by the system BEA employees and government contractors.
- h) How information in the system is retrieved by the user Information is retrieved by secure access to the system (user id, password, PIV. Card)
- i) How information is transmitted to and from the system Bulk Transfers, Efile, Direct Access

Questionnaire:

1.	Status	of the Information System	
1a.	a. What is the status of this information system?		
		This is a new information system. Continue to answer questions and complete certification. This is an existing information system with changes that create new privacy risks. Complete chart below, continue to answer questions, and complete certification.	

Changes That Create New Privacy Risks (CTCNPR)				
a. Conversions	d. Significant Merging	g. New Interagency Uses		
b. Anonymous to Non-	e. New Public Access	h. Internal Flow or		
Anonymous		Collection		
c. Significant System	f. Commercial Sources	i. Alteration in Character		
Management Changes		of Data		
j. Other changes that create new privacy risks (specify):				

This is an existing information system in which changes do not create new privacy risks, and there is not a SAOP approved Privacy Impact Assessment. Continue to answer questions and complete certification.

It is exempt from automatic release under the (b)(4) FOIA exemption. It is exempt from automatic release under the (b)(4) FOIA exemption. It is exempt from automatic release under the (b)(4) FOIA exemption.	
		Yes, the IT system collects, maintain	ins, or disseminates BII.	

-	No, this IT system does not collect any BII.
4a. I	Personally Identifiable Information (PII) Does the IT system collect, maintain, or disseminate PII? As per OMB 17-12: "The term PII refers to information that can be used to distinguish or trace an individual's identity either alone or whe ombined with other information that is linked or linkable to a specific individual."
_	Yes, the IT system collects, maintains, or disseminates PII about: (Check all that apply.)
	 DOC employees Contractors working on behalf of DOC Other Federal Government personnel Members of the public
_	No, this IT system does not collect any PII.
If the	e answer is "yes" to question 4a, please respond to the following questions.
	Does the IT system collect, maintain, or disseminate Social Security numbers (SSNs), including truncated form?
-	Yes, the IT system collects, maintains, or disseminates SSNs, including truncated form.
	ovide an explanation for the business need requiring the collection of SSNs, including incated form.
Pr	ovide the legal authority which permits the collection of SSNs, including truncated form.
	No, the IT system does not collect, maintain, or disseminate SSNs, including truncated form.
4c. I	Does the IT system collect, maintain, or disseminate PII other than user ID?
_	Yes, the IT system collects, maintains, or disseminates PII other than user ID.

		No, the user ID is the only PII collected, maintained, or disseminated by the IT system.
4d.		the purpose for which the PII is collected, stored, used, processed, disclosed, or minated (context of use) cause the assignment of a higher PII confidentiality impact
	level?	
	Examples treatments	of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease, etc.
		Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.
		No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, 4c, and/or 4d are "Yes," a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the SAOP approved PIA must be a part of the IT system's Assessment and Authorization Package.

CERTIFICATION

In a criteria implied by one or more of the questions above apply to BEA-EIIS and as a consequence of this applicability, a PIA will be performed and documented for this IT					
system.					
The criteria implied by the questions above do not apply to the BEA-EITS and as a
