## U.S. Department of Commerce NOAA

Privacy Threshold Analysis for the Ships Fleet Support System (SFSS) NOAA2220

U.S. Department of Commerce Privacy Threshold Analysis

NOAA Ship Fleet Support System

Unique Project Identifier: 006-48-01-15-02-3601-00

**Introduction:** This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Bureau Chief Privacy Officer (BCPO).

**Description of the information system and its purpose:** NOAA2220 is an amalgamation of sixteen ships with similar general functions and operating characteristics, security needs, and operating environments. Common functions of all of the ship backbone subsystems are to provide network connectivity, domain authentication, internet connectivity and general business support services. While each ship has common (or class similar) configurations, mission requirements require each to have a unique configuration.

The NOAA fleet of ships are managed, operated and maintained by NOAA's Office of Marine and Aviation Operations (OMAO), Marine operations centers (MOC), located in Norfolk, Virginia and Newport, Oregon. Additional ship specific support is provided through port office facilities in Woods Hole, Massachusetts; Charleston, South Carolina; Pascagoula, Mississippi; Davisville RI, and Ford Island, Hawaii. Ships are also maintained pier side in Newport, RI and Kodiak, Alaska.

The E-Government Act of 2002 defines "information system" by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: "Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

3. Does the TT system collect, maintain, or disseminate business identifiable information (BII)?

As per DOC Privacy Policy: "For the purpose of this policy, business identifiable information consists of (a) information that is defined in the Freedom of Information Act (FOIA) as "trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential." (5 U.S.C.552(b)(4)). This information is exempt from automatic release under the (b)(4) FOIA exemption.

"Commercial" is not confined to records that reveal basic commercial operations" but includes any records [or information] in which the submitter has a commercial interest" and can include information submitted by a nonprofit entity, or (b) commercial or other information that, although it may not be exempt from release under FOIA, is exempt from disclosure by law (e.g., 13 U.S.C.)."

$\underline{\qquad}$ Yes $app$	s, the IT system collects, maintains, or disseminates BII about: (Check all that vly.)
	Companies
	Other business entities
$X \square No,$	this IT system does not collect any BII.
4. Personally	Identifiable Information
	System collect, maintain, or disseminate personally identifiable information
trace an individu	16, Footnote 1: "The term 'personally identifiable information' refers to information which can be used to distinguish o al's identity, such as their name, social security number, biometric records, etc alone, or when combined with other ifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden
_ <u>X</u> Yes	s, the IT system collects, maintains, or disseminates PII about: (Check all that ly.)
<u>X</u> _[	DOC employees
X[	
X[	Members of the public
No,	this IT system does not collect any PII.
If the answer is	"yes" to question 4a, please respond to the following questions.
4b. Does the IT	Γ system collect, maintain, or disseminate PII other than user ID?
<u>X</u> Yes	s, the IT system collects, maintains, or disseminates PII other than user ID.
	the user ID is the only PII collected, maintained, or disseminated by the IT tem.
•	rpose for which the PII is collected, stored, used, processed, disclosed, or ed (context of use) cause the assignment of a higher PII confidentiality impact
	text of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease
	s, the context of use will cause the assignment of a higher PII confidentiality pact level.

<u>X</u> No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, and/or 4c are "Yes," a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the approved PIA must be a part of the IT system's Assessment and Authorization Package.

## **CERTIFICATION**

_X_□I certify the criteria implied by one or more of the questions above Fleet Support System and as a consequence of this applicability, I will per PIA for this IT system.	
□ I certify the criteria implied by the questions above <b>do not apply</b> to Support System and as a consequence of this non-applicability, a PIA for to necessary.
