U.S. Department of Commerce Privacy Impact Assessment NOAA/National Ocean Service/National Geodetic Survey General Support System

Unique Project Identifier: NOAA6401

Introduction: System Description

Provide a brief description of the information system.

The mission of the National Geodetic Survey (NGS) is to define, maintain and provide access to the National Spatial Reference System (NSRS) to meet our nation's economic, social, and environmental needs.

Using NOAA6401, NGS provides the framework for all positioning activities in the Nation. The foundational elements—latitude, longitude, elevation and shoreline information—contribute to informed decision making and impact a wide range of important activities including mapping and charting, flood risk determination, transportation, land use, and ecosystem management. NGS' authoritative spatial data, models and tools are vital for the protection and management of natural and man-made resources and support the economic prosperity and environmental health of the Nation.

The major NGS products and services are: Aeronautical Surveys Program (ASP), Antenna Calibration, Acquisitions, Continuous Operating Reference Stations (CORS) Data Ingestion and Distribution, Continuous Operating Reference Stations (CORS) Data Coordinate and Velocity Computation, Emergency Response Imagery (ERI), General Passive Control Tools, Geoid, Gravity for the Redefinition of the Vertical Datum (GRAV-D), Office Automation and Collaboration, Online Positioning User Service (OPUS), Orbit Processing, Shoreline Mapping Program, VDatum.

Since the last PIA review, NOAA6401 has not changed the type and amount of PII/BII.

Address the following elements:

(a) Whether it is a general support system, major application, or other type of system General Support System

(b) System location

NGS's primary facility is in the Silver Spring Metro Campus, Silver Spring, MD, with much smaller facilities in: Field Operations Branch, Chesapeake, VA, Testing and Training Center, Woodford, VA, David Skaggs Research Center, Boulder CO, Table Mountain Field Site and Radio Quiet Zone, Longmont, CO, and NOAA Enterprise Data Center, Ashburn, VA. Cloud-based services are located in Amazon Web Services.

- (c) Whether it is a standalone system or interconnects with other systems (identifying and describing any other systems to which it interconnects)
- NOAA6001 NOS for Enterprise Level Services no shared BII/PII except for select BII documents requiring ITSO signature shared via 1 restricted folder in NOAA6001 with NOS ITSO and files removed when review is completed.
- NOAA0100 NOAA Cyber Security Center for a variety of IT security services no shared BII/PII
- NOAA0201 NOAA Web Operations Center DNS no shared BII/PII
- NOAA0520 NOAA Enterprise Data Centers provide operation and maintenance of the Enterprise Data Center, Ashburn, VA
- NOAA0550 NOAA N-WAVE for Network Connectivity no Shared BII/PII
- NOAA0700 High Availability Enterprise Services (HAES) includes ICAM, NOAA Staff Directory as well as all NOAA directory services no Shared BII/PII
- NOAA0900 NOAA Service Delivery Division provides a broad number of services, Unified Mail Services UMS for Google Suite and other mobile device services is the most significant one.
- (d) The way the system operates to achieve the purpose(s) identified in Section 4

The mission of the National Geodetic Survey (NGS) is to define, maintain and provide access to the National Spatial Reference System (NSRS) to meet our nation's economic, social, and environmental needs.

Using NOAA6401, NGS provides the framework for all positioning activities in the Nation. The foundational elements—latitude, longitude, elevation and shoreline information—contribute to informed decision making and impact a wide range of important activities including mapping and charting, flood risk determination, transportation, land use, and ecosystem management. NGS' authoritative spatial data, models and tools are vital for the protection and management of natural and man-made resources and support the economic prosperity and environmental health of the Nation.

The major NGS products and services are: Aeronautical Surveys Program (ASP), Antenna Calibration, Acquisitions, Continuous Operating Reference Stations (CORS) Data Ingestion and Distribution, Continuous Operating Reference Stations (CORS) Data Coordinate and Velocity Computation, Emergency Response Imagery (ERI), General Passive Control Tools, Geoid, Gravity for the Redefinition of the Vertical Datum (GRAV-D), Office Automation and Collaboration, Online

Positioning User Service (OPUS), Orbit Processing, Shoreline Mapping Program, VDatum.

These afore described Products and Services are supported a traditional client server model. Data is hosted on servers and made available via https. All applications are developed through a standard Software Development Life Cycle with a prescribed Change Management Processing including Development, Test and Production Environments.

(e) How information in the system is retrieved by the user

Outside non-authenticated users access a public web server. Internal authenticated users, using Government Furnished Equipment, can retrieve data based on their assigned Roles and Responsibilities.

(f) How information is transmitted to and from the system

National Geodetic Survey General Support System (NOAA6401) collects and stores limited Personally Identifiable Information (PII); specifically, names, telephone numbers, and email addresses (voluntarily submitted by staff, partners, volunteers, and government and non-government collaborators) to facilitate internal and external communications to facilitate business and collaborative functions (e.g. training and webinars). For training and webinars registration necessary to allow coordinating the activity and sharing URLs, only name and email address are required, agency name is optional. This is not a central collection, but rather separated by function or individual project or persons.

NOAA6401 stores information about individuals during the application and hiring (electronic copies of resumes and hiring ranking are stored temporarily during the hiring phase), as well as standard Human Resources (HR) information (such as Travel authorization and vouchers, passports and international travel forms (completed by the employee through the travel portal), information for security badging processes (contact information only – the employee completes the badge application on paper forms, which are taken to the NOAA Office of Security), and performance appraisal ranking. NGS employee data is collected, stored, and maintained for internal COOP, Human Resources, and workforce planning purposes (federal employee/contractor).

NGS collects Business Identifiable Information (BII) during the pre- and post- activities associated with the acquisition and management of contracts. The storage is in the form of PDF forms or word processing/spreadsheet documents. There is no application or database used to collect or store BII or PII. NGS does not have a separate HR division and instead relies on the NOAA Office of Human Capital Services. All information is stored on supervisors' and acquisition managers' restricted access file storage available only to the specific employee(s). Access is restricted to those on a need to know basis, by permissions settings and/or passwords. The data is access controlled when on a desktop machine or file share; if stored on laptop, the data is encrypted since all mobile devices have full encryption per DOC policy.

Grants Online Application Review (Grants Online) – Information in identifying form is made available by NOAA Grants Online (FISMA system ID, NOAA1101, PIA signed 6/13/2022) to NGS to accomplish Independent Individual Merit Reviews supporting the NOAA Grants Online system and process. Information about the NOAA Grants Program (non-public system) may be found at:

https://www.corporateservices.noaa.gov/~grantsonline/index.html

Information extracted from NOAA Grants Online to support the Independent Individual Merit Reviews is stored temporarily to facilitate the review process lifecycle. This information can include any general personal information and work-related information. Although it is not the intent to extract sensitive PII from the NOAA Grants Online system, it is possible the information could contain the Employer Identification Number (EIN). The EIN is a non-mandatory field, which may be populated on the grant's information made available by federal forms not managed by NGS. The NGS General Support System (NOAA6401) does not collect this identifying information directly. Use of Amazon Web Services for processing, storage and distribution of select products, mostly for COOP.

Aerial imagery from fixed wing aircraft are collected as part of NGS' Aeronautical Survey Program, Coastal Mapping Program, and Emergency Response Imagery with a resolution of approximately 15cm. Small Unmanned Aerial Systems (sUAS) collecting imagery with a resolution of ~6 cm are being used for research evaluation associated with the Coastal Mapping Program and Emergency Response efforts. All UAS operations are operated in accordance with the NOAA UAS Privacy Policy. In addition, 3 UAS aerial gravity datasets were collected as part of NGS' GRAV-D program in 2017, and no additional ones are planned. None of these data sets are aimed or have the ability to uniquely identify individuals. However, DEPT-29 is referenced in this document.

Select/ad hoc images, audio and video recordings of training/informational webinars, meetings and fieldwork are available for the public to view/download.

Outside users can choose to share geodetic data with NGS to obtain National Spatial Reference System aligned coordinates from their data, and support future improvements to the NSRS. The users' submitted data may contain metadata records that include an email address and company name.

(g) Any information sharing

The principal products and services created by NGS involve collection, computation and distribution of: geodetic data (GNSS, terrestrial levelling, gravity etc.) and associated metadata, coordinates of points/benchmarks, imagery of coastlines using a variety of sensors. The geodetic data used to create NGS products and services is primarily collected by NGS employees (federal and contractors), but may also be collected by other federal, state, local agencies, educational institutions, private companies, and the public and given to NGS. In addition, select/ad hoc images, audio and video recordings of training/informational webinars, meetings and fieldwork done by NGS employees (federal and contractors) are available for the public to view/download.

National Geodetic Survey General Support System (NOAA6401) collects (federal and contractors), and stores limited Personally Identifiable Information (PII); specifically, names, telephone numbers, and email addresses (voluntarily submitted by staff, partners, volunteers, and government and non-government collaborators) to facilitate internal and external communications to facilitate business and collaborative functions (e.g. training and webinars). This data is not shared with any external group.

NGS federal employees collect information about individuals during the application and hiring (electronic copies of resumes and hiring ranking are stored temporarily during the hiring phase), as well as standard Human Resources (HR) information (such as Travel authorization and vouchers, passports and international travel forms (completed by the employee through the travel portal),

information for security badging processes (contact information only – the employee completes the badge application on paper forms, which are taken to the NOAA Office of Security), and performance appraisal ranking. NGS employee data is collected by federal employees, stored, and maintained for internal COOP, Human Resources, and workforce planning purposes (federal employee/contractor).

NGS federal employees collect Business Identifiable Information (BII) during the pre- and post-activities associated with the acquisition and management of contracts. The storage is in the form of PDF forms or word processing/spreadsheet documents. There is no application or database used to collect or store BII or PII. NGS does not have a separate HR division and instead relies on the NOAA Office of Human Capital Services. All information is stored on supervisors' and acquisition managers' (both categories are federal employees) restricted access file storage available only to the specific federal employee(s).

(h) The specific programmatic authorities (statutes or Executive Orders) for collecting, maintaining, using, and disseminating the information

NGS Products and Services Authorities

- -5 U.S.C. § 301 authorizes the operations of an executive agency, including the creation, custodianship, maintenance and distribution of records.
- -15 U.S.C. 1501 et. seq
- -15 U.S.C. § 1512 is an Organic Law which confers general powers and duties authority to executive agencies, vesting jurisdiction and control of departments, bureaus, offices and branches.
- -44 U.S.C. 3101

-Presidential Memorandum: Promoting Economic Competitiveness While Safeguarding Privacy, Civil Rights, and Civil Liberties in Domestic Use of Unmanned Aircraft Systems (Feb. 15, 2015); National Marine Sanctuaries Act, 16 U.S.C. 1431 et seq.; Marine Debris Act, 33 U.S.C. 1951 et seq.; Coast and Geodetic Survey Act, 33 U.S.C. 883a et seq.; Coastal Zone Management Act, 16 U.S.C. 1451 et seg.; Coral Reef Conservation Act, 16 U.S.C. 6401 et seg.; National Historic Preservation Act, 16 U.S.C. 470 et seg.; Ocean Pollution Act, 33 U.S.C. 2701 et seg.; Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9601 et seg.; Clean Water Act, 33 U.S.C. 1251; 47 CFR parts 80, 87, and 95. The system is also authorized by the U.S. Office of Management & Budget (OMB) Circular A–130; the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 et seq. (Magnuson-Stevens Act); High Seas Fishing Compliance Act of 1995, 16 U.S.C. 5501 et seq.; International Fisheries Regulations: Vessels of the United States Fishing in Colombian Treaty Waters: 50 CFR 300.120; the FAA Modernization and Reform Act of 2012 (Pub. L. 112–95); the American Fisheries Act, Title II, Public Law 105–277; the Atlantic Coastal Fisheries Cooperative Management Act of 1993, 16 U.S.C. 5101-5108, as amended 1996; the Tuna Conventions Act of 1950, 16 U.S.C. 951–961; the Atlantic Tunas Convention Authorization Act, 16 U.S.C. Chapter 16A; the Northern Pacific Halibut Act of 1982, 16 U.S.C. 773 et seq. (Halibut Act), the Antarctic Marine Living Resources Convention Act of 1984, 16 U.S.C. 2431–2444; the Marine Mammal Protection Act, 16 U.S.C. 1361; and the Debt Collection Improvement Act, 31 U.S.C. 7701.

- -Federal Preparedness Circular (FPC) 65, July 26, 1999
- -Executive Order 12065, 12656
- -E-Government Act of 2002 (Pub. L. 107–347) Section 204; Davis-Bacon and Related Acts: 40 U.S.C. 3141–3148 40 U.S.C. 276a; 29 CFR parts 1, 3, 5, 6 and 7; Section 5 of the Digital Accountability and Transparency Act (DATA Act), Public Law 113–101.
- -DAO 210-110; Executive Order 12564; Public Law 100-71, dated July 11,

1987. Acquisitions Authorities

-For the Entity Management functional area of SAM, the authorities for collecting the information and maintaining the system are the Federal Acquisition Regulation (FAR) Subparts 4.11 and 52.204 and 2 CFR, Subtitle A, Chapter I, and Part 25, as well as 40 U.S.C. 121(c). For the exclusions portion of the Performance Information functional area, the authorities are FAR Subparts 9.4 and 28.2, Executive Order 12549 (February 18, 1986), Executive Order 12689 (August 16, 1989).

-Debt Collection Act of 1982 (Pub. L. 97-365); Budget and Accounting Act of 1921; Accounting and Auditing Act of 1950; Federal Claim Collection Act of 1966.

Human Resources Authorities

- -Equal Employment Act of 1972
- -5 CFR Part 537;
- -5 U.S.C. 5379, 7531-332
- -26 U.S.C. 6402(d)
- -28 U.S.C. 533-535, 3101-3105
- -31 U.S.C. 3711
- -41 U.S.C. 433(d)
- -DAO 202-957

Executive Orders 10450, 11478, 12107, 12564, 13164

(i) The Federal Information Processing Standards (FIPS) 199 security impact category for the system

Moderate

Section 1: Status of the Information System

1.1 Indicate whether the information	ation system is a new or exist	ting system.				
This is a new informatio	n system.					
This is an existing inform	nation system with changes t	that create new privacy risks.				
(Check all that apply.)						
Changes That Create New Privacy R	isks (CTCNPR)					
a. Conversions	d. Significant Merging	g. New Interagency Uses				
b. Anonymous to Non- Anonymous	e. New Public Access	h. Internal Flow or				
		Collection				
c. Significant System	f. Commercial Sources	i. Alteration in Character				
Management Changes		of Data				
j. Other changes that create new privacy	y risks (specify):					
	mation system in which changes SAOP approved Privacy Imp	ges do not create new privacy act Assessment.	r			
This is an existing information system in which changes do not create new privacy risks, and there is a SAOP approved Privacy Impact Assessment.						

Section 2: Information in the System

2.1 Indicate what personally identifiable information (PII)/business identifiable information (BII) is collected, maintained, or disseminated. (Check all that apply.)

Identifying Numbers (IN)					
a. Social Security*		f.	Driver's License		j. Financial Account
b. Taxpayer ID		g.	Passport	X	k. Financial Transaction
c. Employer ID	X	h.	Alien Registration		Vehicle Identifier
d. Employee ID		i.	Credit Card		m. Medical Record
e. File/Case ID					
n. Other identifying numbers (specify):					

^{*}Explanation for the business need to collect, maintain, or disseminate the Social Security number, including truncated form:

General Personal Data (GPD)					
a. Name	X	h.	Date of Birth		o. Financial Information
b. Maiden Name		i.	Place of Birth		p. Medical Information
c. Alias		j.	Home Address	X	q. Military Service
d. Gender		k.	Telephone Number	X	r. Criminal Record
e. Age		1.	Email Address	X	s. Marital Status
f. Race/Ethnicity		m.	Education		t. Mother's Maiden Name
g. Citizenship		n.	Religion		
u. Other general personal data (specify):					

W	ork-Related Data (WRD)					
a.	Occupation	X	e. Work Email Address	X	i. Business Associates	
b.	Job Title	X	f. Salary		j. Proprietary or Business Information	
c.	Work Address	X	g. Work History		k. Procurement/contracting records	X
d.	Work Telephone Number	X	h. Employment Performance Ratings or other Performance Information	X		
1.	1. Other work-related data (specify):					

Distinguishing Features/Biometrics (DFB)						
a. Fingerprints		f.	Scars, Marks, Tattoos	k	. Signatures	
b. Palm Prints		g.	Hair Color	1.	Vascular Scans	
c. Voice/Audio Recording	X	h.	Eye Color	n	n. DNA Sample or Profile	
d. Video Recording	X	i.	Height	n	. Retina/Iris Scans	
e. Photographs	X	j.	Weight	0	. Dental Profile	
p. Other distinguishing features/biometrics (specify):						

System Administration/Audit Data (SAAD)					
a. User ID	X	c. Date/Time of Access	X	e. ID Files Accessed	
b. IP Address	X	f. Queries Run	X	f. Contents of Files	
g. Other system administration/audit data (specify):					

Other Information (specify)		

2.2 Indicate sources of the PII/BII in the system. (Check all that apply.)

Directly from Individual about Whom the Information Pertains						
In Person	X	Hard Copy: Mail/Fax	X	Online	X	
Telephone	Telephone X Email X					
Other (specify):						
Outside users may choose to	subm	nit email addresses via our we	bsite v	when submitting data to NGS.		

Government Sources				
Within the Bureau	X	Other DOC Bureaus	Other Federal Agencies	
State, Local, Tribal		Foreign		
Other (specify):				

Non-government Sources						
Public Organizations Private Sector X Commercial Data Brokers						
Third Party Website or Applica	ation					

Other (specify):

BII is associated with Pre/Post Acquisition tasks only. Generally, PII is acquired as part of facilities safety and security and administrative tasks; and it is stored only for a temporary period of time in restricted networked drives.

2.3 Describe how the accuracy of the information in the system is ensured.

Agency Products and Services Data:

All data collected related to producing the Agency's products and services is quality controlled using criteria established for the specific product or service it is destined for, and only distributed if it meets the Agency's standards. Any contact information that is submitted by the public, e.g. email, telephone, is not validated and will be deleted if invalid.

Acquisition Data:

All acquisitions are under the purview of the contracting officer. The contracting officer verifies not only all vendor contact information, but also validity of other information submitted by the vendor and may avail themselves of technical experts as needed.

Human Resource (HR) Data:

The HR representative verifies All HR data at the time of collection. This verification may involve verification of identification cards (Driver's License, Passport, etc.) and other documents.

2.4 Is the information covered by the Paperwork Reduction Act?

	Yes, the information is covered by the Paperwork Reduction Act. Provide the OMB control number and the agency number for the collection.
X	Using the NOAA approved PRA process. OMB control number: 0690-0030 NOAA Customer Survey Renewals (expires 07/31/2023).
	No, the information is not covered by the Paperwork Reduction Act.

2.5 Indicate the technologies used that contain PII/BII in ways that have not been previously deployed. (Check all that apply.)

Technologies Used Containing PII/BII Not Previously Deployed (TUCPBNPD)					
Smart Cards	Biometrics				
Caller-ID	Personal Identity Verification (PIV) Cards				
Other (specify):					

X	There are not any technologies used that contain PII/BII in ways that have not been previously deployed.
---	--

Section 3: System Supported Activities

3.1 Indicate IT system supported activities which raise privacy risks/concerns. (Check all that apply.)

Activities			
Audio recordings	X	Building entry readers	
Video surveillance	*X	Electronic purchase transactions	

Other (specify):

* NGS collects aerial imagery to support its mission, using both fixed-wing and sUASs. In addition, select/ad hoc images, audio and video recordings of training/informational webinars, meetings and fieldwork are available for the public to view/download.

There are not any IT system supported activities which raise privacy risks/concerns.

Section 4: Purpose of the System

4.1 Indicate why the PII/BII in the IT system is being collected, maintained, or disseminated. (*Check all that apply.*)

Purpose			
For a Computer Matching Program		For administering human resources programs	X
For administrative matters	X	To promote information sharing initiatives	
For litigation		For criminal law enforcement activities	
For civil enforcement activities		For intelligence activities	
To improve Federal services online		For employee or customer satisfaction	
For web measurement and customization	X	For web measurement and customization	
technologies (single-session)		technologies (multi-session)	

Other (specify):

PII with regards to name, email address, and agency may be collected to coordinate training and webinars, and/or submitting geodetic data. BII may be collected to determine qualification and/or eligibility for open acquisitions. PII/BII: NOAA Grants Online – Grant Merit Reviews.

Section 5: Use of the Information

5.1 In the context of functional areas (business processes, missions, operations, etc.) supported by the IT system, describe how the PII/BII that is collected, maintained, or disseminated will be used. Indicate if the PII/BII identified in Section 2.1 of this document is in reference to a federal employee/contractor, member of the public, foreign national, visitor or other (specify).

PII

The collection and storage of information is part of accomplishing the legislated mission of NGS, NOS, and NOAA. NOAA6401 stores PII on an ad hoc basis as part of the application and hiring of employees, including electronic copies of resumes, as well as processing of HR data about employees. This information is stored temporarily during the hiring phase, and the security badging process. Standard HR information such as travel authorization and vouchers, (name, work email address and work telephone number), and performance appraisal ranking are stored for a required period of time for auditing purposes generally 6 years.

In addition, NGS stores limited PII and potentially an EIN (BII), for grant review only, on an ad hoc basis about individuals or entities that are providing information in support of a grant application submitted through NOAA Grants Online, which is retained for the review process lifecycle only. Select/ad hoc images, audio and video recordings of training/informational webinars, meetings and

fieldwork are available for the public to view/download.

BII

Pre and Post Acquisition BII is collected and utilized during the pre-acquisition through deliverable BIDS packages and contain specific company information. BII information is maintained on a restricted access network folder during the execution of an awarded contract and other information from companies not receiving awards is deleted, when appropriate.

5.2 Describe any potential threats to privacy, such as insider threat, as a result of the bureau's/operating unit's use of the information, and controls that the bureau/operating unit has put into place to ensure that the information is handled, retained, and disposed appropriately. (For example: mandatory training for system users regarding appropriate handling of information, automatic purging of information in accordance with the retention schedule, etc.)

All information stored within the NOAA6401 system in shared network drives are controlled by defined permissions based on the project and employee access rights. Least privilege is the default policy in NOAA6401 and is implemented through file share permissions and access control lists to ensure privacy and open only to those demonstrating a "need to know." Access to restricted files or folders must be requested through a change request ticket, which is reviewed and documented by the NOAA6401 Information System Security Officer and Information Technology Manager for authorization prior to implementation. Any electronically transmitted PII information must follow the federal government and NOAA standard procedure of secure packaging such as utilization of Department of Commerce (DOC) Kiteworks for encryption in transit. Annual IT security training, which includes privacy, and insider threat concerns/safeguards is required.

Section 6: Information Sharing and Access

6.1 Indicate with whom the bureau intends to share the PII/BII in the IT system and how the PII/BII will be shared. (Check all that apply.)

D '	Но	How Information will be Shared				
Recipient	Case-by-Case	Bulk Transfer	Direct Access			
Within the bureau	X					
DOC bureaus	X*					
Federal agencies	X*					
State, local, tribal gov't agencies						
Public						
Private sector						
Foreign governments						
Foreign entities						
Other (specify):						

^{*}In case of privacy breach

The PII/BII in the system will not be shared.

6.2 Does the DOC bureau/operating unit place a limitation on re-dissemination of PII/BII shared with external agencies/entities?

	Yes, the external agency/entity is required to verify with the DOC bureau/operating unit before redissemination of PII/BII.
	No, the external agency/entity is not required to verify with the DOC bureau/operating unit before re- dissemination of PII/BII.
X	No, the bureau/operating unit does not share PII/BII with external agencies/entities.

6.3 Indicate whether the IT system connects with or receives information from any other IT systems authorized to process PII and/or BII.

X	Yes, this IT system connects with or receives information from another IT system(s) authorized to process PII and/or BII. Provide the name of the IT system and describe the technical controls which prevent PII/BII leakage:
	NOAA0100, NOAA0201, NOAA0520, NOAA0550, NOAA0700, NOAA0900, NOAA6001 no PII/BII see Introduction (c).
	No, this IT system does not connect with or receive information from another IT system(s) authorized to process PII and/or BII.

6.4 Identify the class of users who will have access to the IT system and the PII/BII. (Check all that apply.)

Class of Users			
General Public	X	Government Employees	X
Contractors	X		
Other (specify):			

Section 7: Notice and Consent

7.1 Indicate whether individuals will be notified if their PII/BII is collected, maintained, or disseminated by the system. (Check all that apply.)

X	Yes, notice is provided pursuant to a system of records notice published in the Federal Register and		
	discussed in Section 9.		
X	Yes, notice is provided by a Privacy Act statement and/or privacy policy. The Privacy Act statement and/or privacy policy can be found at:_		
	https://geodesy.noaa.gov/privacy.shtml.		
X	X Yes, notice is provided by other means. Specify how:		
		Notice is on the applicable Acquisition forms, HR forms, or at start of recording/photography.	
		COOP: Employees are informed of the need to collect contact information for COOP purposes via email and verbally from their supervisor.	

	On every webpage of our website with a PSA link when requesting optional Contact information e.g. email.
No, notice is not provided.	Specify why not:

7.2 Indicate whether and how individuals have an opportunity to decline to provide PII/BII.

X	Yes, individuals have an opportunity to	Specify how:
	decline to provide PII/BII.	Users are informed when submitting data via online forms that they can decline to provide contact information, but doing so may result in some services not working, if they do the individual consents to its use for the purpose of follow-up contact on information provided as described in the NGS Privacy Policy posted on the NGS website.
		When NGS administrative PII is requested, individuals are verbally told by administrative appointed staff or supervisor that they can decline but that it may affect the overall processing of their employment. Privacy statements are embedded in forms.
		BII provided for acquisition consideration is not mandatory. However, declining to provide the information necessary to evaluate them for an acquisition could result in non-award.
		PII provided within NOAA Grants Online, utilized within the Review Application, is managed through the NOAA Grants Online application only. Completion of the Grants Online application is needed for award consideration.
	No, individuals do not have an opportunity to decline to provide PII/BII.	Specify why not:

7.3 Indicate whether and how individuals have an opportunity to consent to particular uses of their PII/BII.

X	Yes, individuals have an opportunity to	Specify how:
	consent to particular uses of their PII/BII.	Public submission of PII data associated with a job application is voluntary and is only used with regard to this purpose. Applicants have the opportunity to consent to only particular uses of their PII, in writing, to the HR representative or to their supervisors, but it might affect the overall processing of their employment.
		For NGS training/webinars requests of name and email are voluntary, and the individual has the opportunity to consent to this use by registering for the event. In addition, any recordings of training/webinars or other settings images/audio/video recordings users are warned of possible recording at the start of the event prior to recording and may opt-out.
		NGS administrative PII may be collected with respect to ongoing business tasks such as Travel. Individuals consent to the use of their PII for this purpose by requesting approval to travel.
		An individual consents to the use of their PII/BII for acquisition purposes by submitting a proposal.
		BII provided within NOAA Grants Online, utilized within the CSCOR Review Application, is managed through the NOAA Grants Online application only.
	No, individuals do not have an opportunity to consent to particular uses of their PII/BII.	Specify why not:

7.4 Indicate whether and how individuals have an opportunity to review/update PII/BII pertaining to them.

X	Yes, individuals have an opportunity to review/update PII/BII pertaining to them.	Specify how: The public may contact NGS via email to request to review/update PII/BII as described in the NGS privacy policy.
		NGS employees may contact HR Staff, supervisors or the Employee Personnel Page (MyEPP) or Personnel Office files (ePO) to review/update their information, as they are informed as part of new employee orientation.
	No, individuals do not have an opportunity to review/update PII/BII pertaining to them.	Specify why not:

Section 8: Administrative and Technological Controls

8.1 Indicate the administrative and technological controls for the system. (Check all that apply.)

	All users signed a confidentiality agreement or non-disclosure agreement.
X	All users are subject to a Code of Conduct that includes the requirement for confidentiality.
	Staff (employees and contractors) received training on privacy and confidentiality policies and practices.
X	Access to the PII/BII is restricted to authorized personnel only.
X	Access to the PII/BII is being monitored, tracked, or recorded.
	Explanation: ACL rules prevent unauthorized access of restricted folders.
X	The information is secured in accordance with the Federal Information Security Modernization Act
	(FISMA) requirements. Provide date of most recent Assessment and Authorization (A&A): ATO signed on 31-May-2022 valid through 30-May-2023
	☐ This is a new system. The A&A date will be provided when the A&A package is approved.
X	The Federal Information Processing Standard (FIPS) 199 security impact category for this system is a moderate or higher.
X	NIST Special Publication (SP) 800-122 and NIST SP 800-53 Revision 4 Appendix J recommended security controls for protecting PII/BII are in place and functioning as intended; or have an approved Plan of Action and Milestones (POA&M).
	A security assessment report has been reviewed for the information system and it has been determined that there are no additional privacy risks.
X	Contractors that have access to the system are subject to information security provisions in their contracts required by DOC policy.
	Contracts with customers establish DOC ownership rights over data including PII/BII.
	Acceptance of liability for exposure of PII/BII is clearly defined in agreements with customers.
	Other (specify):

8.2 Provide a general description of the technologies used to protect PII/BII on the IT system. (*Include data encryption in transit and/or at rest, if applicable*).

All information stored within the NOAA6401 system in shared network drives is controlled by defined permissions based on the project and employee access rights. Least privilege is the default policy in NOAA6401 and is implemented through file share permissions and access control lists to ensure privacy and open only to those demonstrating a "need to know." Access to restricted files or folders must be requested through a change request ticket which is reviewed and documented by the NOAA6401 Information System Security Officer and Information Technology Manager for authorization prior to implementation. Any electronically transmitted PII information must follow the federal government and NOAA standard procedure of secure packaging such as utilization of Department of Commerce (DOC) Kiteworks for encryption in transit.

NGS/NOAA6401 is categorized as a Moderate IT System using the FIPS-199 standards and implements the associated security controls listed in NIST Special Publication 800-53 Revision 4. To comply with NIST Special Publication 800-53 Revision 4 controls NGS has an IT security program that completes continuous monitoring activities including: security control reviews, vulnerability scanning and patching, review of security access control lists, review of audit logs, handling of access change requests and change control board activities. Risk assessments include the possible threats and vulnerability to the confidentiality, integrity, and availability of mission and sensitive PII/BII data along with associated countermeasures. Every year as part of the required Assessment and Authorization (A&A) process, an

external auditor is hired and evaluates the security plan, the selected security controls of NOAA6401 to ensure that they meet Department of Commerce and NOAA guidelines for continued operation.

Section 9: Privacy Act

9.1	Is the PII/BII searchable by a personal identifier (e.g., name or Social Security number)?		
	<u>X</u>	Yes, the PII/BII is searchable by a personal identifier.	
		No, the PII/BII is not searchable by a personal identifier.	
0.2	T., 11 4		

9.2 Indicate whether a system of records is being created under the Privacy Act, 5 U.S.C. § 552a. (A new system of records notice (SORN) is required if the system is not covered by an existing SORN).

As per the Privacy Act of 1974, "the term 'system of records' means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual."

X	Yes, this system is covered by an existing system of records notice (SORN). Provide the SORN name, number, and link. (list all that apply):
	COMMERCE/DEPT-2, Accounts Receivable
	COMMERCE/DEPT-6, Visitor Logs and Permits for Facilities Under Department Control
	COMMERCE/DEPT-9, Travel Records (Domestic and Foreign) of Employees and Certain Other Persons
	COMMERCE/DEPT-13, Investigative and Security Records
	COMMERCE/DEPT-18, Employees Personnel Files not covered by Notices of Other
	Agencies
	NOAA-11, Contact Information for Members of the Public Requesting or Providing Information Related to NOAA's Mission
	GSA-GOVT-9, System for Award Management
	GSA-GOVT-10, FAR Data Collection System
	COMMERCE/DEPT-29, Unmanned Aviation Systems
X	Yes, a SORN has been submitted to the Department for approval on 25-Sep-2019 for webinars (audio and/or video) and images on NGS websites. This SORN is still pending.
	No, this system is not a system of records and a SORN is not applicable.

Section 10: Retention of Information

10.1 Indicate whether these records are covered by an approved records control schedule and monitored for compliance. (Check all that apply.)

X	There is an approved record control schedule. Provide the name of the record control schedule:
	Retention records are indicated in each of the aforementioned SORN's see Section 9 and are

further covered under General Records Schedules (GRS) issued by the National Archives and Records Administration (NARA) see

https://www.archives.gov/records-mgmt/grs.html

All electronic versions of records scheduled for disposal may be deleted at the expiration of the retention period Any administrative PII data, the records would be retained under the following NARA General Records Schedules (GRS):

- 2.4 Employee Compensation and Benefits Records
- 2.5 Employee Separation Records
- 3.1 General Technology Management Records
- 3.2 Information Systems Security Records
- 4.1 Records Management Records
- 4.2 Information Access and Protection Records
- 5.1 Common Office Records
- 5.2 Transitory and Intermediary Records

Additional Retention Records have been established as listed by the NOAA Chief Administrative Office (CAO).

<u>Chapter 100 – General</u>

<u>Chapter 200 – Administrative and Housekeeping Records</u>

Chapter 300 – Personnel

Chapter 400 – Finance

Chapter 700 – Procurement, Supply, and Equipment Maintenance

Chapter 1600 – Ocean Programs (National Geodetic Survey specific ones only)

Chapter 2300 – General Information Technology Management Records

Chapter 2400 – Information System Security Records

No, there is not an approved record control schedule.

Provide the stage in which the project is in developing and submitting a records control schedule:

X Yes, retention is monitored for compliance to the schedule.

No, retention is not monitored for compliance to the schedule. Provide explanation:

10.2 Indicate the disposal method of the PII/BII. (Check all that apply.)

Disposal			
Shredding	X	Overwriting	X
Degaussing	X	Deleting	X
Other (specify):			

Section 11: NIST Special Publication 800-122 PII Confidentiality Impact Level

11.1 Indicate the potential impact that could result to the subject individuals and/or the organization if PII were inappropriately accessed, used, or disclosed. (The PII Confidentiality Impact Level is not the same, and does not have to be the same, as the

Federal Information Processing Standards (FIPS) 199 security impact category.)

X	Low – the loss of confidentiality, integrity, or availability could be expected to have a limited adverse
	effect on organizational operations, organizational assets, or individuals.
	Moderate – the loss of confidentiality, integrity, or availability could be expected to have a serious adverse
	effect on organizational operations, organizational assets, or individuals.
	High – the loss of confidentiality, integrity, or availability could be expected to have a severe or
	catastrophic adverse effect on organizational operations, organizational assets, or individuals.

11.2 Indicate which factors were used to determine the above PII confidentiality impact level. (Check all that apply.)

X	Identifiability	Provide explanation:
		Contact information (email, telephone) could identify an individual.
X	Quantity of PII	Provide explanation:
		Most PII is only stored for a temporary amount of time and with limited number of individuals authorized to access this information. Travel documents and some acquisition documents are kept for auditing purposes.
X	Data Field Sensitivity	Provide explanation:
		PII data fields are only used when absolutely necessary and SSN is never filled out. In the NOAA Grants Online EIN number is not required and not used but may be retained temporarily.
X	Context of Use	Provide explanation:
		PII is only stored for a limited time-period and for a specific purpose.
X	Obligation to Protect Confidentiality	Provide explanation: 5 USC 552(b)(4)
X	Access to and Location of PII	Provide explanation:
		The storage of PII is mostly temporary and is the data is kept only in access control restricted locations and minimizing the number of authorized users. Some travel documents and acquisition documents are kept longer in restricted folders for auditing requirements.
	Other:	Provide explanation:

Section 12: Analysis

12.1 Identify and evaluate any potential threats to privacy that exist in light of the information collected or the sources from which the information is collected. Also, describe the choices that the bureau/operating unit made with regard to the type or quantity of information collected and the sources providing the information in order to prevent or

mitigate threats to privacy. (For example: If a decision was made to collect less data, include a discussion of this decision; if it is necessary to obtain information from sources other than the individual, explain why.)

NGS minimizes both its collection and retention of PII/BII data and does not store any sensitive PII. The limited data that is collected is restricted by policy to be stored in access-controlled folders consistent with assigned employee roles and responsibilities. This reduces the risk of privacy related information being stored in other locations. NGS has an assigned employee in charge of Records Management who ensures that reviews and retention times are maintained. In addition, all items both paper and electronic that are slated for excess comply with NIST/DOC/NOAA requirements, including, but not limited to shredding, degaussing, wiping, etc.

	12.2	Indicate whether	the conduct of the	his PIA results in a	ny required business	process changes.
--	------	------------------	--------------------	----------------------	----------------------	------------------

	Yes, the conduct of this PIA results in required business process changes. Explanation:
X	No, the conduct of this PIA does not result in any required business process changes.

12.3 Indicate whether the conduct of this PIA results in any required technology changes.

	Yes, the conduct of this PIA results in required technology changes. Explanation:
X	No, the conduct of this PIA does not result in any required technology changes.
