Privacy Threshold Analysis
for the
Intellectual Property Leadership Management Support System
(IPLMSS)

U.S. Department of Commerce Privacy Threshold Analysis

USPTO Intellectual Property Leadership Management Support System (IPLMSS)

Unique Project Identifier: PTOL-001-00

Introduction: This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Senior Agency Official for Privacy (SAOP).

Description of the information system and its purpose: The components of the Intellectual Property Leadership Management Support System (IPLMSS) are located at the USPTO Alexandria, Virginia. The IPLMSS system resides on the USPTO network (PTONet).

The purpose of the Intellectual Property Leadership Management Support System (IPLMSS) is to provide automated support to USPTO internal and external users for the timely search and retrieval of electronic text and images concerning Patent Practitioners, Patent Appeals Board cases and Trademark Trial and Appeals Board information by dissemination.

Questionnaire:

1.

	This is an existing info	ormati	on system with change questions, and complete certifications.	es that	d complete certification. create new privacy risks	S.
Γ	Changes That Create New I	Privacy	Risks (CTCNPR)			
	a. Conversions		d. Significant Merging		g. New Interagency Uses	
	b. Anonymous to Non- Anonymous		e. New Public Access		h. Internal Flow or Collection	
	c. Significant System Management Changes		f. Commercial Sources		i. Alteration in Character of Data	
	j. Other changes that create i	new pri	vacy risks (specify):			
	This is an existing info		•	anges	do not create new privac	су

2.	Is the	IT system or its information used to support any activity which may raise privacy						
	conce	concerns?						
	NIST Special Publication 800-53 Revision 4, Appendix J, states "Organizations may also engage in activities that do not involve the collection and use of PII, but may nevertheless raise privacy concerns and associated risk. The privacy controls are equally applicable to those activities and can be used to analyze the privacy risk and mitigate such risk when necessary." Examples include, but are not limited to, audio recordings, video surveillance, building entry readers, and electronic purchase transactions.							
		Yes. Please describe the activities which may raise privacy concerns.						
	\boxtimes	No						
3.	As per Do the Freed privilegeo "Commer submitter	The IT system collect, maintain, or disseminate business identifiable information (BII)? OC Privacy Policy: "For the purpose of this policy, business identifiable information consists of (a) information that is defined in om of Information Act (FOIA) as "trade secrets and commercial or financial information obtained from a person [that is] d or confidential." (5 U.S.C.552(b)(4)). This information is exempt from automatic release under the (b)(4) FOIA exemption. reial" is not confined to records that reveal basic commercial operations" but includes any records [or information] in which the bas a commercial interest" and can include information submitted by a nonprofit entity, or (b) commercial or other information ough it may not be exempt from release under FOIA, is exempt from disclosure by law (e.g., 13 U.S.C.)."						
		Yes, the IT system collects, maintains, or disseminates BII about: (Check all that apply.)						
		□ Companies						
		☐ Other business entities						
		No, this IT system does not collect any BII.						
4.	Person	nally Identifiable Information						
	(PII)? As per Of trace an i	Des the IT system collect, maintain, or disseminate personally identifiable information MB 07-16, Footnote 1: "The term 'personally identifiable information' refers to information which can be used to distinguish or individual's identity, such as their name, social security number, biometric records, etc alone, or when combined with other or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden in"						
		Yes, the IT system collects, maintains, or disseminates PII about: (Check all that apply.)						

		□ DOC employees
		☐ Contractors working on behalf of DOC
	\boxtimes	☐ Members of the public
		No, this IT system does not collect any PII.
If t	he ansv	ver is "yes" to question 4a, please respond to the following questions.
	4b.	Does the IT system collect, maintain, or disseminate PII other than user ID?
	\boxtimes	Yes, the IT system collects, maintains, or disseminates PII other than user ID.
		No, the user ID is the only PII collected, maintained, or disseminated by the IT system.
	disser level?	s of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease
		Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.
	\boxtimes	No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, and/or 4c are "Yes," a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the approved PIA must be a part of the IT system's Assessment and Authorization Package.

CERTIFICATION

□ I certify the criteria implied by one or more of the questions above apply to the Intellectual Property Leadership Management Support System (IPLMSS) and as a consequence of this applicability, I will perform and document a PIA for this IT system.
\Box I certify the criteria implied by the questions above do not apply to the (IPLMSS) and as a consequence of this non-applicability, a PIA for this IT system is not necessary.
