Privacy Threshold Analysis
for the
Reed Technology and Information Services, Inc. (Reed Tech)
Public Data Dissemination (PDD)

## U.S. Department of Commerce Privacy Threshold Analysis USPTO RTIS PDD

**Unique Project Identifier:** PTOC-025-00

**Introduction:** This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Senior Agency Official for Privacy (SAOP).

**Description of the information system and its purpose:** Provide a general description of the information system and its purpose in a way that a non-technical person can understand. The E-Government Act of 2002 defines "information system" by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: "Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

The following section provides a general description of the RTIS PDD system and identifies the system's purpose, capabilities, users, and information data flow and discusses the hardware, software and firmware implemented in support of RTIS PDD.

RTIS PDD is an application information system that is designed to gather and disseminate all publicly available USPTO Patent & Trademark bulk data to the public. The system collects data from various USPTO source systems, packages it into appropriate file containers and delivers it via a public web site. RTIS hosts the PDD and is required to provide to the public, free of charge, bulk datasets provided by the USPTO and the Public PAIR bulk dataset compiled by RTIS. A portion of the PDD system is hosted on the FISMA certified section of the Microsoft Azure system. The portion of the system residing on Azure hosts the most recent file sets, as they are the most downloaded files and Azure provides the needed bandwidth to meet the needs of the USPTO's customers.

RTIS provides the retrieval and distribution of patent and trademark bulk data in essentially unaltered form, modified only as necessary to organize or compress the data for ease of distribution or for security purposes, from the USPTO to the public. Data dissemination is a continuous system and RTIS shall continuously monitor the datasets and shall retrieve and host updates and changes as they go forward. RTIS PDD uses a secure infrastructure, housed external to the USPTO, that performs collection and dissemination of all data to the public at no cost to the public or the USPTO. Such infrastructure may be distributed.

## **Questionnaire:**

1.	Wh	at is the status of this info	rmatio	on system?					
	П	This is a new informa	tion sy	ystem. Continue to answer ques	stions ar	nd complete certification			
			•	-			c		
	Ш	This is an existing information system with changes that create new privacy risks.  Complete chart below, continue to answer questions, and complete certification.							
		<b>Changes That Create New</b>	Privacy		T	1			
		a. Conversions		d. Significant Merging		g. New Interagency Uses			
		b. Anonymous to Non- Anonymous		e. New Public Access		h. Internal Flow or Collection			
		c. Significant System  Management Changes		f. Commercial Sources		i. Alteration in Character of Data			
		j. Other changes that create	new pr	ivacy risks (specify):					
		This is an existing infrisks. Continue to answer que		•	anges	s do not create new priva	су		
2.	Is the IT system or its information used to support any activity which may raise privacy concerns?  NIST Special Publication 800-53 Revision 4, Appendix J, states "Organizations may also engage in activities that do not involve the collection and use of PII, but may nevertheless raise privacy concerns and associated risk. The privacy controls are equally applicable to those activities and can be used to analyze the privacy risk and mitigate such risk when necessary." Examples include, but are not limited to, audio recordings, video surveillance, building entry readers, and electronic purchase transactions.								
		Yes. Please describe	the ac	ctivities which may rais	e priv	vacy concerns.			
	$\boxtimes$	No							
3.	As pe the Fr privile "Com submi	es the IT system collect, mer DOC Privacy Policy: "For the purporedom of Information Act (FOIA) as "eged or confidential." (5 U.S.C.552(b) amercial" is not confined to records that itter has a commercial interest" and call although it may not be exempt from relationships of the confidence of the con	ose of this 'trade sec (4)). This t reveal b n include	s policy, business identifiable inforcerets and commercial or financial in s information is exempt from autonossic commercial operations" but in information submitted by a nonpre-	rmation nformati natic rel ncludes ofit enti	consists of (a) information that is defi ion obtained from a person [that is] ease under the (b)(4) FOIA exemption any records [or information] in which ty, or (b) commercial or other inform	ined in on. h the		
		Yes, the IT system co <i>apply.</i> )	llects,	maintains, or dissemin	ates I	BII about: (Check all tha	!t		

		Companies
		Other business entities
	$\boxtimes$	No, this IT system does not collect any BII.
4.	Person	ally Identifiable Information
	4a. Do (PII)?	es the IT system collect, maintain, or disseminate personally identifiable information
	trace an ir	AB 07-16, Footnote 1: "The term 'personally identifiable information' refers to information which can be used to distinguish or dividual's identity, such as their name, social security number, biometric records, etc alone, or when combined with other or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden"
	$\boxtimes$	Yes, the IT system collects, maintains, or disseminates PII about: (Check all that apply.)
		DOC employees
		Contractors working on behalf of DOC
	$\boxtimes$	Members of the public
		No, this IT system does not collect any PII.
If t	he answ	er is "yes" to question 4a, please respond to the following questions.
	4b.	Does the IT system collect, maintain, or disseminate PII other than user ID?
	$\boxtimes$	Yes, the IT system collects, maintains, or disseminates PII other than user ID.
		No, the user ID is the only PII collected, maintained, or disseminated by the IT system.
		ll the purpose for which the PII is collected, stored, used, processed, disclosed, or inated (context of use) cause the assignment of a higher PII confidentiality impact

Examples of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease

treatments, etc.

	Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.
$\boxtimes$	No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, and/or 4c are "Yes," a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the approved PIA must be a part of the IT system's Assessment and Authorization Package.

## **CERTIFICATION**

☑ I certify the criteria implied by one or more of the questions above <b>apply</b> to the Reed Technology and Information Services, Inc. (Reed Tech) Public Data Dissemination (PDD) and as a consequence of this applicability, I will perform and document a PIA for this IT system.
☐ I certify the criteria implied by the questions above <b>do not apply</b> to the Reed Technology and Information Services, Inc. (Reed Tech) Public Data Dissemination (PDD) and as a consequence of this non-applicability, a PIA for this IT system is not necessary.
Name of System Owner (SO): Long Ung
Signature of SO: $\sqrt{\frac{4}{19}/17}$
Name of Senior Information Security Officer (SISO): Rami Dillon
Signature of SISO: $\int Ref dA$ Date: $\frac{4}{20}/12$
Name of Authorizing Official (AO) & Bureau Chief Privacy Officer (BCPO): John B. Owens II
