**This is a Public Notice. Please read this Public Notice in its entirety prior to submitting your application for consideration.**

The Attorney supports the Department's efforts to implement its ICTS supply chain authorities under Executive Orders (EOs) 13873, 13984, and 14034. EO 13873 delegated authority to the Secretary of Commerce (Secretary) to review and possibly prohibit or impose mitigation measures on ICTS transactions involving a foreign adversary and that pose certain undue or unacceptable risks to national security. EO 13984 requires the Secretary to develop regulations requiring United States Infrastructure as a Service (IaaS) providers to verify the identity of their foreign customers and authorizing the Secretary to use special measures to deter foreign malicious cyber actors' use of United States IaaS products. EO 14034 directs the Department to develop rules to add the term "connected software applications" to definition of ICTS

transactions, and to establish criteria for evaluating ICTS transactions involving connected software applications in its rules implementing EO 13873.

The Department is developing and implementing an ICTS transaction review process under these authorities and is also engaged in multiple rulemaking efforts in support of this process.

The Attorney will provide legal advice regarding, and perform functions related to, ongoing and anticipated ICTS transaction reviews as well as related regulatory matters. This includes assisting with investigations, drafting legal memoranda and recommendations, drafting administrative subpoenas, reviewing subpoena responses and responsive documents, interacting with outside counsel, assessing evidence, advising on risk assessments, advising on the development of measures to resolve any risks, including through mitigation agreements, and advising on recommendations to the Secretary concerning initial and final determinations.

The Attorney may also perform rulemaking and other legal duties related to ICTS work, as assigned. Additional duties include: providing technical legal advice, particularly in connection with the Department's ICTS authorities; drafting and reviewing statutes, regulations, and Executive Orders that include Department equities as they pertain to ICTS; reviewing compliance with statutory, regulatory, and executive order requirements, and coordinating with other Departmental and interagency offices, as necessary; and counseling and bringing to the attention of office and Department leadership matters within the purview of the office. In addition, the Attorney-Advisor will be required to carry out duties such as legal research, and development of legal recommendations related to the Department's ICTS responsibilities.
